Lawrence J. Farmer
"The Strawberry Man"
PULASKI, NEW YORK
Beautiful Framed Picture Given Away

This dining room fruit picture should be in the home of everybody who loves strawberries. It shows a large willow basket filled with luscious strawberries and, for comparison, two large perfectly formed bananas are on the outside of the basket. The frame is imitation mahogany about 2½ inches wide, oval in shape, somewhat oblong. The glass is oval or convex, giving the best effect to the picture. The picture and frame measure a little over 17 inches in height and a little over 28 inches in length. It looks like an oil painting and gives a very pleasing effect in any dining or other room in the house. We have presented one of these pictures to every grange in Oswego County and the grangers are immensely pleased with it. If you are ever in any grange in our county, look for this picture. We have quite a quantity of these pictures left and we have decided to give one to every person, so long as the pictures last, who sends us in an order during the year 1926 for $100.00 or more worth of goods from this catalog. This is in addition to any other deductions, special prices, or discounts, that we may be giving on such an order. It does not make any difference whether the order is an individual order for the use of one person or family or whether it is a club order from a neighborhood or grange; the picture will be presented free just the same. Some of our friends may wish to club together and get this picture for their grange. Some person may wish to get this picture for his own dining room and by getting up a club order in his neighborhood to the amount of $100.00, he can secure the picture. We wish that we were financially able to give this picture free to every grange or charitable institution in the country, but the picture costs us a good sum of money and we cannot afford it, but here is a way that every grange or other institution, as well as many individuals, can have it if they will only go after it. Please let us know as early as possible if you are working for this picture, so we can save one for you. Address L. J. Farmer, Pulaski, N. Y.

Simplicity Hedge Trimmer and Pruner

Simplicity Hedge Trimmer (upper tool in illustration) and Simplicity Hedge Pruner and Trimmer (lower tool). These are the best hedge trimming tools that we have ever seen. In one hour, a person will do as much or more with these tools as he formerly could in a whole day with the old-fashioned hedge shears. The Simplicity Hedge Trimmer weighs 2 lbs., has 19 big, keen teeth, cutting cleanly when opening and closing. It is adapted for trimming green hedge and doing light work. Price $4.00 each. The Simplicity Hedge Pruner and Trimmer weighs 3 lbs., is 18 inches wide, with 31 strong teeth, which cut both when opening and closing. It is adapted for more heavy work, trimming back hedges that have made too much mature wood and for uses that the lighter tool is not quite heavy enough. Price $6.00 each. We unqualifiedly recommend these two tools to our patrons and will cheerfully return your money if they do not prove entirely satisfactory.
Order Goods from this Catalog
Collect on Delivery

We recognize the fact that very few people are flush with money in these times, and it is not always convenient to send in the remittance with the order. This is why a good many put off ordering until the last minute, resulting in disappointment sometimes to themselves and a congestion of business for us. We recommend that you send in your order as early as possible with the understanding that the goods are to be shipped C. O. D. for the full amount, less whatever small payment may be made on them at time of ordering.

To old customers, who have traded with us in the past and whom we know, we will send goods C. O. D. for the full amount; but those who are unknown to us should either send a small part of the cost of the goods with the order, as a guarantee of good faith, or else send references or convince us in some way of their good intentions and ability to pay for the goods when they arrive. We recommend that one-fourth of the full amount be sent in with the order whenever possible. We will accept personal checks or any established method of remitting money.

PRICES

The prices in this list are net, no discount. Goods are sent collect on delivery for the transportation charges, whether by Parcel Post or Express, unless specifically marked "Prepaid." Prices have been made as low as possible, in view of our purpose to furnish good plants &c, true to name. It is our sincere desire that every transaction shall be to the advantage of the buyer as well as to ourselves. Please make your order at least $1.00 and address all orders to

L. J. FARMER, Pulaski, N. Y.

STRAWBERRIES

For garden culture, set strawberries 1 foot to 18 inches apart in the row, with rows two to three feet apart. For field culture set the same distance in the row, but make the rows 4 to 5 feet apart. There are 43,560 square feet in an acre and you can find the number of plants that go on an acre by dividing 43560 by the multiplied distance between the plants. Thus an acre of strawberries set 5 by 1 contains 8712 plants and an acre set 4 by 1, contains a little over 10,000 plants. This method can be used to find the number of plants or trees of any kind that can be planted on an acre. The best time to get strawberries in the North is early spring, but transplanted plants can be set any time in the growing season and pot grown plants are best set in July, August and September. October and November are best months for setting strawberry plants in Florida and similar climates.

Strawberry Varieties Classified

Greatest Yielders. Jumbo, Come Back, Champion Everbearing, Francis, Premier, Howard 17, Campbell's Early, Ozark, Warfield, Haverland, Parsons Beauty, Balbach, Cooper, Success, Glen Mary, Sample, Aroma, Big Joe, Kellogg's Prize, S. L. Champion, Mascot.

Best for Distant Shipment. S. L. Champion, Glen Mary, Jumbo, Walt's, Come Back, Early Ozark, Missionary, Parsons Beauty, Brandywine, Nick Ohmer, Klondike, Gandy, Crimson Cluster, Lupton, Mascot, The Best.

Farmer on the Strawberry

Send 50 cents for a copy of our book, "Farmer on the Strawberry," 112 pages, fully illustrated. This book is given free with orders from this price list amounting to $10.00 or more.
Farmer on the Strawberry

A book you all should have. One hundred and twelve pages, over 40 beautiful half-tone illustrations. Written by L. J. Farmer, who has spent his life among strawberries and small fruits. Nearly 20,000 copies of this book have been sold. This is the fourth and latest edition. Price, Fifty Cents, postpaid.

SOME OF THE TOPICS TREATED

Origin of the Strawberry.
The Different Species.
Who Ought to Grow Strawberries.
The Fruits of Strawberries.
Strawberry Culture as a Side Issue.

Price of "Farmer on the Strawberry," 50c, postpaid. Those who order goods from this catalog to the amount of $2.00 can have the book for 25c. We give the book free with all orders amounting to $10.00 or more. We do not send the book on approval this year, on account of the high price of paper.

OUR UNUSUAL OFFER. Send us 50c for this book, "Farmer on the Strawberry," read it carefully, and, if after reading it you do not consider it benefits you to the amount of $5.00 or more, return it to us in good condition and we will return your money, 50c.

Farmer's Essays on Fruit Culture

ALL PRACTICAL AND TO THE POINT

How to Grow Strawberries in a Barrel. Tells all the secrets. Price, 10c.
The Proper Time to Set Strawberry Plants. There used to be a certain time in the spring when people set strawberry plants. Now they set them most any time. This essay points it all out. Price, 10c.
The Proper Handling of Small Fruit Plants. This tells the duty of the nurseyman and what the planter must do in order to have his plants live and grow. Price, 10c.
Fall Planting and its Advantages. It is getting more and more popular to plant in the fall on account of the rush work in spring. This essay sheers how and the advantages. Price, 10c.
What, Where, When and How to Plant, by Bohleender, is the most valuable little book for the money that we have ever read. It tells, as its title indicates, what, where, when and how to plant fruit and ornamental trees, berry plants, roses, shrubs, evergreens, vines and perennials, etc. Price, 25c.
Postpaid.
How to Care for Trees, Shrubs, Plants and Vines During the Winter. As its name implies, this is information that most people need. Price, 10c.
Some Secrets in Selling and Marketing of Fruits. This is the most important item, but least understood by fruit growers in general. Price, 10c.
About that Check for Mr. Williams. Who should stand the loss when the plants fail to grow? This essay gives some light on the subject. Price, 10c.
Some Things the Farmer Should Have That He Usually Goes Without. A very instructive address given by L. J. Farmer on Grange Day, at Old Home Week, Redfield, N. Y., Sept. 3rd, 1921. Price, 10c.
Postpaid.
Our Special Offer. You can mail "Farmer on the Strawberry," "What, Where and How to Plant," and the 8 essays for only $1.25. Money back if not satisfied.

Our Location and Facilities

Our nursery is located just off the main road from Syracuse to Watertown, one mile south of Pulaski a progressive village of 2,500 inhabitants who enjoy most of the modern improvements such as electric lights, natural gas, a high pressure water system, paved streets, and city delivery of mail, etc.

Pulaski is the junction of two divisions of the New York Central Railroad. The postoffice is second class due largely to our patronage and handles the five Rural Free Deliveries from the village. There are two banks located in Pulaski, the Pulaski, National and the People's National; also, branch offices of the Black River Telephone Company, the Western Union Telegraph Co., and the American Express Co. We refer to any of the above as to our reliability and responsibility.

Please address all communications to

Fall Strawberries a Great Success

From The Sunday Post-Standard of Syracuse, N. Y. Nov. 2nd.

Fall Strawberry Harvest Continues on Pulaski Farm

Six Crates Day’s Yield of Field of Lawrence J. Farmer; Well Known Authority—Sunshine Aids to Give Fine Crop

PULASKI, Nov. 1.—Picking six crates of strawberries on the last day of October was the experience of Lawrence J. Farmer at his Maplewood farms about a mile south of this village. They were of the fall-bearing variety, promoted by Farmer more than 14 years ago. He expects to continue picking at least a week or two longer under present weather conditions.

The Post-Standard of September 12, 1910, carried the first story of the exploiting of the fall-bearing strawberry by Lawrence J. Farmer, which created quite a furore and the story was published widely in newspapers and magazines throughout the country and also was carried by a magazine in Japan. It was stated by Farmer in reminiscing today on the first appearance of the wonderful berry.

He said many persons 14 years ago considered a fall strawberry a myth. His farms were visited by hundreds of motoring parties.

Claims Substantiated

Farmer, who has had years of experience in berry culture, continued his work preliminary to producing this much-talked of berry. His prediction, made years ago, that strawberries can be raised in this climate as late as November, has been substantiated.

Thousands of growers all over the United States now are producing this particular kind of fruit late in fall months and marketing it at good prices.

Quality of fruit, he said, largely depends upon the amount of sunshine. Cold, rainy weather detracts from quality of berry.

Hrots, not only at Pulaski, but in other towns and cities now serve strawberry shortcake made from home-grown berries practically every day from early June until about the middle of November.

Farmer thus far this season has shipped fall-bearing strawberries to Syracuse, Watertown and Utica, as well as to Saranac Lake, Tupper Lake, Norwood and other points.

Crops Unusually Fine

The crop this season has been unusually fine and of excellent quality, due to long-continued favorable weather.

Farmer is one of the best known authorities in the United States on the strawberry and is author of a work, "Farmer on the Strawberry," which has reached its fourth edition and has been sent to all parts of the civilized world.

Reproductions of James Farmer, Miss Helen Farmer and Miss Mattie Farmer, children of the proprietor picking the berries in November, 1910, have been sent to all parts of the world. James and Helen are graduates of Syracuse University and Miss Mattie Farmer this year entered the same institution.

Sends Fourteen (14) Orders in One Season—Everything Satisfactory

Mr. Lawrence J. Farmer, Pulaski, N. Y.

St. Lawrence County, N. Y., 11-17

Dear Sir:—The last order I sent you makes Fourteen (14) orders in all that I have sent you this season. Everything has proved entirely satisfactory. And now I have a beautiful fruit and flower garden which is admired by everyone that views it.

I shall take pleasure in ordering of you in the future. I advise anyone that is in need of products from a First Class Nursery not to overlook Mr. L. J. Farmer. He gives you the very best stock, is reliable and you get what your order calls for, and prompt service. I feel safe in recommending Mr. Farmer’s Nursery. With best wishes, I am

Yours very truly,

C. E. DeVilbis.
THREE KINDS OF STRAWBERRY PLANTS

There are three kinds of strawberry plants,—Layer, Transplanted and Pot Grown.

Layer Strawberry Plants

Common or layer strawberry plants are those that grow naturally in the field from runners. Parent plants are set in the field and when the runners form, little plants also form on them. These grow and develop into large plants which may be allowed to fruit or be used for transplanting.

Transplanted Strawberry Plants

Transplanted plants are plants that have been grown in the field and afterwards transplanted into cold frames or into little beds in the open ground. They might be compared to transplanted celery or other vegetable plants, tomatoes and the like. They are much more reliable than common layer plants, especially late in the season after layer plants have made much growth and are top heavy with fruit and leaves. If set in beds in early spring, the growth is retarded, the top growth is small and they have in a measure, largely recovered from the “Shock” that strawberry plants always have to endure when transplanted. Transplanted plants are not only more stubbed and rugged, but some earth clings to the roots when they are taken up, and they do much better when set out in the permanent patch than common or layer plants.

Pot Grown Strawberry Plants

Pot grown strawberry plants are especially adapted for setting in the extremely dry weather of July, August and early September. They are produced by plunging small 2 inch pots into the soil near the parent strawberry plant and allowing the young plant from the runner to root in the pot instead of the open soil. When the pot is full of roots, the runner is severed and the plant, pot and all is taken to a protected place and kept well watered until it will not wilt when exposed to the sunshine. The plant is now knocked out of the pot and is ready to ship or set out in the open field. Because of the added labor involved, pot grown plants are much more expensive than either layer or transplanted plants.

Varieties of Strawberries

Prices given are for layer or common field grown plants. Varieties marked “Per.” are perfect in flower and will bear well when planted alone. Varieties marked “Imp.” are imperfect in flower and need to be planted near some perfect flowered variety that blossoms at the same time.

Senator Dunlap (Per.) This is the most popular variety of strawberry for growing in the Northern part of the U. S. It does well under partial neglect, yet readily responds to good treatment. The plants are great runners, healthy and productive. The berries are medium in size, deep red through and through and of very fine flavor. Fine for home use, early market or for canning. We can supply unlimited quantities of plants. Price, 25, 50c; 100, $1.00; 1,000, $8.00; 10,000, $75.00.

Premier (Per.) Enormously productive of bright glossy berries, very large and attractive to the eye. Plants moderate growers, having a peculiar curl to the leaves. Berries of this variety sold in Syracuse markets last summer for $12.00 per bushel crate and on the New York market for 40 cents per qt. It is not high flavored but it is so very large and attractive and at the same time so productive, that it pleases both the grower and the market man. Price, 25, 50c; 100, $1.50; 1,000, $12.00.
Some Specimens of the Jumbo Picked in November

Jumbo (Per.) Comparatively new. Being largely planted to replace other kinds as fast as plants become available. Plants giant in size, very thrifty, healthy and productive. Inclined to bear a fall crop on old beds that have fruited before. Berries very large, regular in shape and of good flavor. It has the peculiar characteristic of remaining in fruit a long time, beginning in midseason and lasting to very late, thus ripening its fruit at times when berries bring good prices. It holds the record for price, a crate of 32 quarts, selling on the New York market for $3.00 or $1.00 per quart. Like many other good things, lots of spurious plants have been sold for Jumbo and growers cannot be too careful who they buy plants of. Beware of plants offered too cheap. We are the introducers and offer only pure plants. Price, 10 plants for $1.00; 25, $1.50; 100, $4.00; 1,000, $35.00.

Howard 17 (Per.) Similar, if not the same as "Premier. Same price as "Premier."

Gibson (Per.) Plants and berries similar to Dunlap, but somewhat larger fruit and inclined to be more productive. Said to be the same as Parsons Beauty and Pocomoke. 25, 65c; 100, $1.25; 1,000, $10.00.

Big Late (Imp.) Thrifty growing plants and very productive of very large glossy attractive berries that sell well in market. 25, 65c; 100, $1.25; 1,000, $10.00.

Cooper (Per.) Enormous plants and enormous berries. A great yielder and creates a sensation when in fruit. 25, 65c; 100, $1.50; 1,000, $12.00.

Judith (Per.) Plants strong and healthy. Berries very large, deep red in color and ripening midseason to late. Not particular as to soil planted on. A favorite in Massachusetts, where it originated. 25, 65c; 100, $1.50; 1,000, $12.00.

Early Ozark (Per.) Strong thrifty growing plants, enormously productive. Berries very large, deep dark red outside and inside, very firm and good shippers. Ripens its crop in a short time. Fine for canning. Much like the old Wilson in every way, but is over twice as large in size. 25, 65c; 100, $1.75; 1,000, $15.00.

Oswego (Per.) Strong growing, light colored plants with large leaves. Berries very large, elongated with deep red color next the sun and a shade lighter on the underside. A favorite with many who dislike acid in the strawberry, as it is of very mild flavor. It is so popular that it has been re-introduced and renamed many times, being known as New York, Corsican, Hundred Dollar &c. 25, 65c; 100, $1.25; 1,000, $12.00.

Delicious (Per.) Plants hardy and great yielders. Originated in this county. Berries bright red, very large and wedge shaped. Of the highest flavor. 25, 75c; 100, $2.00; 1,000, $15.00.

Early Jersey Giant (Per.) Enormously productive of the very largest berries. Plants healthy and vigorous. I have grown them so that 20 berries filled a quart basket as they were picked in the field. Genuine plants very scarce. 25, 75c; 100, $2.00; 1,000, $15.00.

Campbell's Early (Per.) 25, 75c; 100, $2.00; 1,000, $15.00.

Horsey (Per.) 25, 75c; 100, $2.00; 1,000, $15.00.

Excelsior (Per.) 25, 65c; 100, $1.25; 1,000, $10.00.

Missionary (Per.) 25, 65c; 100, $1.25; 1,000, $10.00.

Michel's Early (Per.) 25, 65c; 100, $1.25; 1,000, $10.00.

Haverland (Imp.) 25, 75c; 100, $1.50; 1,000, $12.00.

Climax (Per.) 25, 75c; 100, $1.50; 1,000, $12.00.

Warfield (Imp.) 25, 75c; 100, $1.50; 1,000, $12.00.

Tennessee Prolific (Per.) 25, 75c; 100, $1.50; 1,000, $12.00.

Hubach (Imp.) 25, $1.00; 100, $3.00; 1,000, $20.00.
Marshall (Per.) 25, $1.00; 100, $3.00; 1,000, $20.00.
Norwood (Per.) 25, $1.00; 100, $3.00; 1,000, $20.00.
Chesapeake (Per.) 25, $1.00; 100, $3.00; 1,000, $20.00.

Gandy (Per.) 25, 75c; 100, $2.00; 1,000, $15.00.
Big Joe (Per.) 25, 75c; 100, $2.00; 1,000, $15.00.
Kellogg’s Prize (Imp.) 25, 75c; 100, $2.00; 1,000, $35.00.
Lapton (Per.) 25, 75c; 100, $2.00; 1,000, $15.00.
Champion Everbearing (Per.) Produces an immense crop of medium sized dark red berries, similar to Dunlap in shape and color. Plants vigorous and hardy. Berries ripen from August until winter. Flavor sweet and delicious. This with its parent, the Progressive are more largely grown than any other for the fall crop. It produces a good crop of fruit in the spring which ripens very early before other strawberries, but towards the close of the season, the berries get too small for market. This holds the record for producing over $2,000 from an acre in one year. Price, 25, $1.00; 100, $2.50; 1,000, $18.00.

Everlasting (Per.) This is of the Superb class of everbearing. The plants are vigorous and very productive, either in the fall or spring. Berries are very large, even in shape, bright glossy crimson and present a fine appearance in the market. In fact, the prettiest of all fall bearing strawberries. Not only are the berries large and firm in the fall but they are equally so in the spring and sell for the highest prices in the regular summer season. Many people mistaking them for the Chesapeake variety. It does not come into bearing quite as early as Champion Everbearing but continues until cut down by the frosts of winter. Originated by Mr. Wait of this county and formerly called Wait’s Everbearing. Price, 10 plants $1.00; 100, $4.00; 1,000, $35.00.

Come Back (Per.) Unusually strong plants and very productive, the old plants inclining to bunch up. Berries medium to very large, firm and good shippers. This variety will probably produce as much fruit if not the most of any fall bearing variety we know and is very profitable for market. The spring crop is also very satisfactory. Does best on dry soils. Price, 10 plants $1.00; 100, $4.00; 1,000, $35.00.

Progressive (Per.) 25, 75c; 100, $2.00; 1,000, $15.00.

Superb (Per.) 25, $1.00; 100, $2.50; 1,000, $20.00.
Peerless (Per.) 25, $1.00; 100, $2.50; 1,000, $20.00.
Duluth (Per.) 25, $1.00; 100, $2.50; 1,000, $20.00.
Mastodon (Per.) 10 plants, $2.00; 25, $4.00; 100, $12.00.
The following three varieties originated at the New York Agricultural Experiment Station at Geneva, N. Y.

**Bliss** (Per.) The supreme quality strawberry. It marks the utmost advance in the development of better fruit. It is sprightly sweet, richly fragrant, highly flavored, taste satisfying, refreshing, glossy red, large, very productive. The berries bring the price among people who know. Price 25, $5c; 100, $1.50; 1,000, $12.00.

**Bouquet** (Per.) Destined to be the main crop mid-season market strawberry. Big in plant, berry and crop. The berries are glossy red, juicy, firm, deliciously flavored. Ships long distances without injury. Price same as Bliss.

**Beacon**. (Per.) After testing out all the early strawberries, the station finds the Beacon to be the best early variety in existence. It is also very productive. It is the handsomest of all. Large, glossy red, firm, refreshing. Price same as Bliss. The Beacon is very early, the Bouquet mid-season and the Bliss late.

### Transplanted Strawberry Plants

We advise these for May, June and July planting. On account of extra labor involved in transplanting and handling several times over, we make a small extra charge over and above the price of common layer plants, viz., 5¢ per 25, 10¢ per 100, $3.00 per 1,000. For instance, if Common Layer plants are priced, 5¢ per 25, 10¢ per 100, $1.50 per 1,000; the price of Transplanted plants of the same variety is 90¢ per 25; $2.50 per 100; $18.00 per 1,000.

### Pot Grown Strawberries

**FOR SUMMER AND FALL OF 1926**

Orders for 100 plants may call for 4 kinds.

The basket with asparagus and strawberry plants came in good order yesterday. Samuel W. Brown.

My strawberry plants arrived o. k. and am much pleased with same. The Jumbos sure are huskies.

P. C. Grove.
RASPBERRIES

For garden culture raspberries can be set quite close if necessary, but the bush grows larger and is more fruitful if the plants are given sufficient room for full development. Red raspberries are usually set one to three feet apart in the row, with rows 5 to 6 feet apart. If they are set 3 x 6, it takes about 2400 to the acre or 15 to the square rod. Black raspberries are usually set the same distance in the rows as the red varieties but the rows are made about 7 feet apart. Purple raspberries are often set even further apart than black raspberries. Thus it usually takes a few more than 2000 plans to set an acre of black caps and a few less than 2000 to set an acre of purple raspberries. Raspberry plants do best when set in a dormant condition in the early spring or late fall, but can be set any time with success if care is taken in planting. Care should be taken to plant only raspberry plants that are free of the disease called Mosaic. The plants we have to offer have been inspected according to the rules of the State of New York and are free of Mosaic.

Red Raspberries

St. Regis. This raspberry has been before the public for many years and each year adds to its popularity. It belongs to the American type of raspberries and is hardy and prolific everywhere, North or South. The plants are less subject to Mosaic disease than others and this is why a patch of them improves in fruitfulness from year to year while many varieties gradually die out after the second year. In a discussion on the merits of different varieties of raspberries at the New York State Horticultural Society in Rochester this winter, Mr. Darrow of Connecticut, brother to Geo. M. Darrow of the Dept. of Agriculture, Washington, took the stand that St. Regis and Latham or Redpath were his most profitable varieties. This has been our own experience to a large degree. The plants are clean, healthy growers and produce an enormous crop of fruit very early in the season before other kinds ripen. Its only fault with us is that the fruit is not of the largest size, only medium, but it is produced in such great abundance that we have no trouble in getting them picked. The berries are bright scarlet and sell readily in market. The above refers to the summer crop. The fall crop is the most satisfactory of any ever-bearing red raspberry we know, of good size, excellent quality and of fine color, selling well in market. To get the best results with the fall crop, it is necessary to cut down the canes of the previous year's growth and allow only the young canes that grow up from the roots to bear in the fall. This work can be done late in the fall or very early in the spring. The St. Regis has produced at the rate of nearly $1,000.00 to the acre in the fall. Price 10c each; $5, $1.00; 100, $3.00; 1,000, $25.00; 10,000, $200.00. Transplants, 10c each; $5, $1.50; 100, $5.00; 1,000, $10.00.
Herbert. This is the quality raspberry. It should be grown in home gardens and for market where flavor is appreciated. The canes are healthy, sturdy growers, free from diseases, but are not rampant growers like some and require good culture and liberal fertilizing to do their best. The berries are very large, round and quite firm. The plants originated in Canada are entirely hardy and we have never known of them being affected by Mosaic disease. Price 15c each; 25, $1.50; 100, $4.50; 1,000, $35.00. Transplants 25c each; 25, $2.50; 100, $7.50; 1,000, $60.00.

Redpath. This entirely hardy red raspberry originated in Minnesota where it has created a great furor. It seems to be an improved strain of the Latham, less liable to disease and larger and more productive than Latham. With us, the plants are strong, rugged growers, free of disease and have never been at all affected by cold weather. It is enormously productive, ripening quite late in the season, after St. Regis is nearly done. The berries are large, quite firm and of good color. It is of good flavor when canned but when eaten fresh is not quite as good as some others but equal or better than most of them. This is by far the most profitable red raspberry for market that we know. It has the peculiar characteristic of bearing quite heavily on the new set plant, late in the summer and fall of the first year set out. It is not however, a fall fruiting or everbearing variety, as it bears only in the regular season after the first year. I enthusiastically recommend it. Genuine disease free plants are very scarce. Price 25c each; 25, $3.50; 100, $12.00; 1,000, $100.00. Transplants 50c each; 25, $5.00; 100, $15.00; 1,000, $125.00.

Idaho. A stocky growing plant, entirely hardy. Very productive. Berries very large, dark red, quite soft, but of a sprightly acid taste which especially suits them for canning. Is hardy where most other kinds winter kill. Price 15c each; 25, $1.50; 100, $5.00. Transplants 25c each; 25, $2.50; 100, $8.00.

Victory. Described as an improved Cuthbert, larger, more hardy and productive with plants less inclined to disease. Several of our customers report great success with it. Price 15c each; 25, $1.50; 100, $5.00; 1,000, $40.00. Transplants 25c each; 25, $2.50; 100, $8.00; 1,000, $60.00.

Cuthbert. Too well known to need description. The old favorite for home use and market. Very vigorous and productive and of fine flavor. At each; 25, $1.00; 100, $3.00; 1,000, $25.00. Transplants 15c each; 25, $1.50; 100, $5.00; 1,000, $40.00.

Golden Queen. Described as a white or rather yellow Cuthbert. It is however, more vigorous and productive than Cuthbert and of finer flavor. In fact, there is hardly any raspberry that equals it in flavor. When canned, it does not present a good appearance, but this may be overcome by mixing red raspberries with them, half and half. The reds give the color and the Golden Queen supply the exquisite flavor. It produces an incredible amount of fruit and the canes are extremely vigorous and healthy. Price. 15c each; 25, $1.50; 100, $5.00; 1,000, $40.00. Transplants, 25c each; 25, $2.50; 100, $8.00; 1,000, $60.00.

Early King. 15c each; 25, $1.00; 100, $5.00; 1,000, $30.00. Transplants, 15c each; 25, $1.50; 100, $5.00; 1,000, $45.00.

June. 15c each; 25, $1.75; 100, $6.00; 1,000, $56.00. Transplants, 25c each; 25, $3.00; 100, $16.00; 1,000, $70.00.

Tompkins Co., N. Y., June 19, 1925.

Inclosed fine $9 for order of trees, bushes and plants. They came in fine shape, and are doing nicely.

Myron J. Pierson.

Columbia County, N. Y., June 6, 1925.

Received baby chicks at noon, June 4th; 100, and all alive. They came in fine condition.

H. B. VanDeusen.
Dark Red or Purple Raspberries

Columbian. This seems to be a cross of the red and black raspberries and is more vigorous and productive than either. The canes are giants in growth, sometimes growing 8 feet high and over an inch in diameter. Can be trimmed to look like a tree when in fruit. It is probably the most productive raspberry in cultivation. The berries are dark red and not as attractive in market as red raspberries. They are fine for canning and many prefer them to red raspberries. When people get used to them, there is no difficulty in selling them at good prices. The canning factories call for them and the demand for plants is enormous. Price, 15c each; 25, $1.25; 100, $4.00; 1,000, $25.00. Transplants, 25c each; 25, $2.50; 100, $8.00; 1,000, $50.00.

Royal Purple. This comparatively new dark red raspberry is rapidly forging its way to the front in many sections, especially in the West. It is a slower grower than the Columbian, the canes are much harder and the plants seem to do better than Columbians on heavy soils. We have never seen them winter-killed anywhere and when they are in fruit, the canes are literally lined with berries. The fruit is superior to Columbian in that it can be picked before it is fully ripe and therefore presents better appearance in market. It is as good or better flavored than Columbian. Columbian berries pick quite hard and unless the field is well cared for it is not possible to pick them for market. When picked, the Royal Purple comes off the bushes easily. Another advantage of the Royal Purple over other raspberries is that the canes are practically free of thorns and pickers do not tear their clothes in going among them. The young plants are smaller than Columbian but very hardy and vigorous. Price, 15c each; 25, $1.75; 100, $6.00; 1,000, $55.00. Transplants, 25c each; 25, $3.00; 100, $10.00; 1,000, $50.00.

Cardinal and Haymaker. Same price as Royal Purple.

Black Raspberries

Plum Farmer. When you say “Black Raspberries” you say “Plum Farmer” for most sections of the country. This variety is more largely grown in the great black raspberry growing sections of the U.S. than all others combined. I know a very successful grower near us who has tried them all and he says that black raspberries are the only ones to try. They are more productive and hardy than any other variety. The color is not jet black, but of a grayish black. For home use or market, for drying or canning, there is nothing equal to it in the black raspberry line.

Price, 10c each; 25, $1.25; 100, $3.50; 1,000, $20.00. Transplants, 20c each; 25, $2.00; 100, $6.00; 1,000, $50.00.

Winfield. Same price as Plum Farmer.

Cumberland. Same price as Plum Farmer.

Gregg. Same price as Plum Farmer.

Kansan. Same price as Plum Farmer.

Hoosier. Same price as Plum Farmer.

Honey Sweet. This comparatively new black raspberry was discovered by my friend and neighbor who found it growing beside a pile of boards as he was returning home from a day’s work in the field. A Russian Jew huckster, who bought his berries on the Rochester market, by asking for more of those honey sweet berries, suggested the name “Honey Sweet” which name Mr. Katokhiner eagerly grasped. On our stony upland loam the Honey Sweet has never equalled the Plum Farmer, but we know of several growers who have it on sand and gravel, who say it is a better grower, larger berry, sweeter berry and more productive than Plum Farmer. This is going some to surpass Plum Farmer. The plants are scarce. Price, 15c each; 25, $2.00; 100, $6.00; 1,000, $50.00. Transplants, 25c each; 25, $2.00; 100, $10.00; 1,000, $75.00.

Hand-Made Market Baskets

We can supply hand-made market baskets, made by an old basket maker, at 55c for 2-peck or half bushel size, and 85c for 3-peck size. These are made strong and durable just as they used to make them years ago when our fathers and mothers were here. They are made of white ash split splints, the old way, and are not to be compared with the cheap baskets usually offered in these days. They will last a lifetime and are very handy in sending eggs and other produce to market. Send us the price for one or more of these baskets and we will pack your order in them.

Brooms! Brooms!

In shipping trees by express or parcel post, we have to put in a strong stick of wood, to prevent the trees breaking in transit. The piece of rail or board is quite heavy and adds to transportation charges, but is necessary to prevent the tree from breaking. We have a large number of brooms which were exchanged with a broom manufacturer for plants, etc., and these brooms are just the right shape and strength to put into tree bundles to strengthen them and prevent the trees from breaking over. These brooms are the regular $1 grade; but to induce our customers to have us use them in place of sticks or boards, we will put in one of these brooms as a strengthening in tree bundles, for only 50c. If you want a customer to put in your tree package instead of a heavy stick, please add 50c to the regular price of your order. Additional brooms at the same rate, 50c.
BLACKBERRIES

The Culture of Blackberries is bound to receive more attention from fruit growers of the future or the fruit will disappear from our markets. When I began fruit culture 43 years ago, the wild blackberries of the hedges held full sway and it was unprofitable to try to compete with them by growing cultivated varieties. Now things are entirely changed about. The old slashes and stump patches are nearly cleared off and we find very few wild blackberries. At the same time, there are very few who are raising cultivated ones. I believe that there is nothing a fruit grower can engage in with more certainty of profitable results than the culture of blackberries, provided he has the right soil and conditions. The market is already created; all one has to do is to grow the fruit and supply that market. The culture is very similar to that of raspberries. I think the continuous row is the best method, putting the rows about 8 feet apart and the plants from one to three feet apart in the row. Give clean culture the first year; keep all suckers down by cutting them off, except those in the hills or narrow row. When the canes spread so as to be unmanageable any other way, use the scythe to trim up and narrow the row. Mulch and shallow cultivation helps to carry the fruit to full maturity. It takes about 200 plants to set an acre. They may be set in late fall or in spring. The blackberry plant is very hardy and can be set in a wider range of time than raspberry plants and is not generally hard to make live.

| Macatawba, 20c each: 25. $3.00; 100. $10.00 Transplants, 25c each: 25. $3.50; 100. $12.00. |
| Logan Berry, 25c each: 25. $4.00; 100. $15.00. |
| Himalaya Berry, 15c each: 25. $2.00; 100. $5.00; 1,000. $30.00. Transplants, 25c each: 25. $5.50; 100. $12.00; 1,000. $100.00. |
| Lucretia Dewberry, The dewberry is best described as a trailing or running blackberry. The fruit is very large, nearly as large and long as your finger. It is very attractive and sells well in market. The flavor is not equal to most blackberries but there is nothing disagreeable about it. It lacks the full character of the blackberry. Dewberries must be tied to stakes or a trellis and the canes renewed every year. You allow the canes to sprawl over the ground during the growing season and tie them to stakes in early spring for fruiting that year and after fruiting, cut them out. This process must be kept up from year to year. Price, 10c each: 25. $1.25; 100. $3.50; 1,000. $30.00. Transplants, 15c each: 25. $2.00; 100. $5.00; 1,000. $45.00. |

Eldorado Blackberry

Eldorado. This is the most popular blackberry in this country today. It is hardy, productive, large size and of excellent quality. The individual berries are elongated, like the wild blackberries of the woods. The cane is of a semi-drooping habit, half way between Snyder and the dewberry in this respect. No one will go wrong in planting the Eldorado. The berries are sweet and delicious. Price. 10c each: 25. $1.25; 100. $4.00; 1,000. $30.00. Transplants. 15c each: 25. $1.75; 100. $5.00; 1,000. $45.00.

Snyder. In great favor in cold climates on account of its hardness and vigor. The canes are red in color, while Eldorado are greenish black. The plants are very productive. The berries are medium to large, round in shape, and of good quality when allowed to ripen thoroughly. When picked before fully ripe, they are quite sour and lacking in quality. The Snyder is the favorite berry of the far North. Price same as Eldorado.

Taylor. The canes are a light greenish yellow in color, nearly upright in growth and of equal hardness with Eldorado. The berries are elongated, very much like Eldorado, very sweet and palatable. The favorite table berry. However, it has no quality not equalled by the Eldorado. Price same as Eldorado.

Rathburn. This is a semi-reclining growing plant, not entirely hardy in the far North, but hardy as far North as southern Pennsylvania. The berries are very large, nearly as large as dewberries and produced in great abundance. A great favorite in the sections where it is hardy. Price same as Eldorado.

Ontario Co., N. Y., June 16, 1925. I set out the 1,000 Jumbo strawberry plants from you last week and, while the weather has been dry, I think the majority of them will live.

Philip T. Spillane.

St. Clair Co., Ill., May 21, 1925. Received plants in good condition and much pleased.

Walter Wiskamp.
GOOSEBERRIES

A fruit that is growing in favor in this country, especially in demand among our foreign population. The fruit can be canned or preserved, green or ripe, depending upon the taste. Many people like ripe gooseberries to eat. If you want a taste good gooseberries require much the same care as currants, and their habits are very similar. They will begin fruiting the second year and continue to bear good crops so long as good cultivation is given. Worms will eat off the foliage and render them unfruitful unless care is taken to destroy the worms before they do much damage. Use Green or Hollebore. To prevent gooseberry blight, spray with Paris Green or Lime and Sulphur.

The best results are obtained by planting gooseberries in moist, but not soggy, clay loam, but they will do reasonably well in any well drained soil, if they are well fertilized each year.

The Poorman Gooseberry. This variety of gooseberry originated in the far West, I think in the state of Utah. I know it and is endorsed so highly by station officials, that I have procured a good stock of it. The New York Experiment Station at Geneva was the first to grow it. I have had it growing here for several years, but the demand for plants has been so great that we have never fruited it yet. The plant is a strong, healthy grower, with clean foliage and bears an enormous crop of berries. The fruit is very large, smooth and hard. It is said to thrive when thoroughly grown. It sells for the highest prices in market. Price, 50c per plant; $1.00 per dozen; $35 per 100.

Carrie Gooseberry—Exact Size

The Carrie Gooseberry. This new variety of pure American origin, comes from the state of Minnesota, where it has made itself very popular. We have had it growing for several years and have never known it to be affected by mildew. The plants are good strong growers, clean and healthy. It is enormously productive. I believe the most productive gooseberry I have ever seen. When ripe the fruit is a deep maroon red in color, smooth, attractive and of the finest flavor. It is unquestionably the most promising gooseberry of American origin now before the public and when its merits are fully known, it will be planted in large that section. We offer this gooseberry near equals it in value for planting for home use or near markets. It is not as large as Josselyn but larger than Houghton and much more attractive than either. It is unquestionably the best variety for the farmer to plant. Price, 50c each; 6, $2.50; 12, $4.50; 25, $8.00; 100, $20.00. Carrie, 5-year-old, 50c each; 12, $7.50; 100, $60.00.

Houghton. A medium sized, smooth, pale red gooseberry of fine quality. The bushes are very hardy, vigorous and productive. The amount of fruit. Fine for home use. Price, 25c each; dozen, $2.50; 100, $20.00.

Dowling. This is a very popular variety. The bushes grow very strong and give a large amount of fruit. About 50 per cent larger than Houghton. Price, 25c each; dozen, $3.50; 100, $25.00.

HAGUE—We have several thousand plants of the Houghton gooseberry which are four and five years old, large, thrifty and nice. If set in early spring, they will bear a good crop of berries the same year. If set in the fall, after October 1st, they will bear a full crop of fruit the following summer. We will sell these plants at 50c each; $5.00 per dozen; $25.00 per 100.

Josselyn. A very large fruited variety of American origin. The bushes are hardy, vigorous and productive. This fruit is dull red, smooth and fully three times as large as Houghton. Very valuable. 50c each; dozen, $3.50; 100, $25.00.

Chamataqua. 50c each; dozen, $5.00; 100, $25.00.

Doolittle Gooseberry, $1.25 each.

A Most Favorable Place for the Nursery Business

Ours is a most favorable location for a nursery. We are right at the eastern end of old Lake Ontario and the winds blowing from the lake, temper our climate to such an extent that our season extends to make late planting possible. This results in a mixture of similar latitude and remains cool and favorable for digging and shipping plants long after other sections are too far advanced. Plants and other stock from us are more dormant and in better condition at the usual planting season in the spring than from any other section of the Western Hemisphere except the cold regions of Canada which, of course, are too remote from civilization and inaccessible, on account of lack of transportation facilities. We usually have a warm spell quite early which enables us to get our stock for Southern trade and later on the climate is so tempered that we are enabled to handle Northern orders to the best advantage. We wish to say that trees, shrubs, and other stock from us are in far better condition in May and June than from any nursery section we know of and will grow and do well in your locality, though your season be well advanced. It is far better to get plants that are dormant and set them in a locality that is advanced in vegetation than it is to get plants from a warm climate, where the plants are all budded out, far advanced, to set in a cold climate where vegetation has not started yet. The dormant plant will grow and thrive while the plants that have already budded out will wither and shrivel up. We have arranged our stock so we can fill orders in warm spells at most any time before the buds come out. The uncommon sight to see our men digging plants from beds in February from under three feet of snow.

Fall Bearing Strawberry Seed

These seeds were saved by ourselves from berries grown on our own place and we know what they are. The most of them are taken from the Champion and Earlibearer. Next to the Champion, the most of the seeds are taken from the Everlasting, but there is also a good sprinkling of seeds saved from some of the other varieties. The plants are all left out and far advanced, to have sold these seeds in every state of the Union and in many foreign countries and they give almost universal satisfaction and take a long time to come up and some people are not patient enough. Complete directions for sowing and caring for plants are printed on the cartons and others. We have letters from parties in Australia, New Zealand, Korea, Japan and other places, telling of great success with them. It is almost incredible what can be accomplished with these plants any time in early spring or summer. If sown in February and well cared for they will produce fruit in the following fall or as early as the previous fall in some cases. Prices: 25c per packet; 5 packets for $1.00; 500 seeds in the packet.
The currant requires a very moist, rich soil with a tenacious subsoil in order to do its best. They will not thrive equally well on leached sand or gravel. The plants should be set in rows about five to seven feet apart and about three feet apart in rows. They must be kept clean of weeds and annually fertilized. Nothing is better than a forkful of rich manure every year; wood ashes and commercial fertilizers are also good. In trimming, it is better to remove part of the branches when the bush gets crowded and cut back any branches that have made an excessive growth. Just before the fruiting season, the plants should be mulched with coarse hay, or buckwheat may be sown between the rows, and the weeds eliminated by a plow. After picking, the ground between the rows should be turned over with a one-horse plow and clean cultivation given for the balance of the season. In the spring the ground should be thoroughly cultivated and the process kept up within a short time before the fruit begins to ripen. The worms may be destroyed by any poison such as Hellebore, Paris Green and Arsenate of Lead diluted with water.

White Grape. The best variety for fresh table use, as it is sweet and palatable. Plants healthy and very productive, the most popular white variety. Price, same as Wilder.

Fay's Prolific. A very vigorous growing bush enormously productive, with fruit of very large size. Inclined to do better on light soils than most varieties. Popular with most growers but not as upright a grower as Wilder. Price, same as Wilder.

Red Cross. A comparatively new variety originated by the late Jacob Moore, N. Y. Very vigorous bush and productive. Berries large, beautiful and preferred to Fay's Prolific by some. Price, same as Wilder.

Perfection Currant. A new variety of great merit. We have fruited it several years and consider it the best variety of currant now on the market. It is very productive, extremely large, larger than any other and picks easily. It is a seedling from a cross of the Fay and White Grape, resembling both in many respects. The flavor is very fine. In size it exceeds the Fay. Probably the most popular currant now before the public. It has won medals and diplomas wherever placed on exhibition. Price, 30c each; 12 for $3.00; 100 for $20.00.

Extra Large Fruiting Size Plants, 60c each; dozen, $6.00; 100, $40.00.

Diploma. A fine large currant originated by the late Jacob Moore. It is considered superior to all others by many prominent currant growers. The plants are very healthy and productive, the fruit very large, attractive and easily picked. Price, same as Perfection.

NOTE—We no longer propagate and offer Black Currant plants for sale, as it is against the rules of the Conservation Commission of the State of New York as well as the laws of the state, on account of the White Pine Blister Rust. We are also prohibited by the Federal Horticultural Board at Washington from shipping currants through the post into states of Texas, Oklahoma, Kansas, Nebraska, the Dakotas, New Mexico, Colorado, Wyoming, Montana, Arizona, Idaho, Utah, Nevada, Oregon and Washington. So please do not order currant or gooseberry plants to be shipped to those states.

The eastern states are also quarantined against shipments of currants and gooseberry plants from New York and other states.

Lang's Plant Weeder

A handy tool for removing weeds from between and about plants after superficial hoeing. Adapted for close work and to take the place of and save the fingers. Price: 25c; postpaid for 35c.

Stephenson Co., Ill., April 23, 1925.
Plants received 0. K. If not too late, send Jumbo plants for check enclosed.
H. F. Barr.

Having dealt with you for years and always getting good honest service and prompt delivery, am sending you an order for 35 heavy mixed chickens. Well pleased with the Rhode Island Red last year.
Mrs. Fred Hamel.
Fairfield Co., Conn., April 11, 1925.
The berry bushes are all right and in excellent condition. Am sorry I did not order my strawberries plants from you.

Mrs. J. F. Hagen.
Hartford Co., Conn., April 13, 1925.
I have been dealing with you for 29 years. My original order dates back to 1896. I have always received satisfactory treatment and up-to-date goods.
H. C. Weed.
Fairfield Co., Conn., April 27, 1925.
The Plum Farmer plants you sent were fine, just like the first ones you sent 15 years ago.

Frank L. Rogers.

Varieties

Wilder. A vigorous upright growing bush, very popular in many Eastern growing sections. It is very hardy, productive and the berries are large. This variety is possibly more largely grown than any other kind in cultivation. It was highly recommended by that great currant authority, the late S. D. Willard of Geneva, N. Y. No one can go astray by planting largely to Wilder currant. Price, 2-year plants, 25c each; 12 for $2.00; 25 for $3.50; 100 for $12.00; 1,000 for $100.

Extra Sized Fruiting Plants. We have several thousand extra sized fruiting size plants of the Wilder and White Grape and Fay's Prolific currants, 4 and 5 years old which we will sell at 50c each; $5.00 per dozen; $35 per 100. These, if set early in the spring or late fall, will produce a full crop of fruit the following fruiting season: If set in fall, the next spring; if in spring, in a few weeks.
The grape requires a sunny location, so plant on the south side of buildings, fences and to cover unsightly objects. The earlier and hardier kinds will ripen in most any location and every farmer and house-owner should have a generous supply for home use. The varieties that we list below are adapted for the Northern States. They seem to do best near buildings where the soil is rich, loose and mellow. Plant the vines from 6 to 10 feet apart each way, spread out the roots and cover them with about six inches of mellow soil. Keep the ground about them clean of weeds and the vines well trimmed.

Pruning—The most important point about about grapes is the pruning. When the vines are set, they should be cut back to within two or three buds from the root. Every year in November, after the leaves have fallen, or early in the spring before the sap has started, they should be pruned liberally. In pruning rather tender vines, leave more wood than is needed, as some may be killed by the winter and finish pruning in the spring as soon as leaves are nearly developed, when the life of the vine may be seen. In summer allow a good growth beyond the fruit, and about midsummer, pinch off the ends of the branches to check them, and cut out feeble laterals and branches on which there is no fruit, then there will be much foliage to absorb matter and prepare nutriment and by checking the growth of the wood, it will be appropriated to perfect the fruit. Do not pick off the foliage. The leaves, not the fruit, should be exposed to the sun. We urge this point as thousands mistake and grapes are generally mismanaged. The two great errors are in neglecting to cut off useless wood in fall or spring and of depriving the plants of necessary foliage by too close pruning in summer so as to prevent much fruit from setting. If too much sets, thin it in season, that the juices of the vine may not be wasted on what must be removed. Prices given are for 2-year-old vines. We can supply vines of any variety in cultivation at lowest prices.

The Hubbard Grape

The Caco Grape. A hybrid of the Concord and Catawba. It inherits the valuable characteristics of both varieties to a great degree. Vine perfectly hardy, very vigorous and productive. Bunch good size, compact and of good form. Berry large, wine red in color and of most excellent flavor, sweet and delicious. Ripens in advance of Concord. It is claimed to be the highest in quality of all hardy grapes. I have eaten it and pronounced it unexcelled. Price, 75c each; dozen, $7.50.

The Caco Grape

Hubbard. Quality sweet and delicious, having that fine and pleasant flavor approaching the European or Vinifera Grapes. Seeds few and small which separate freely from the tender pulp. Skin thin and firm. Berries and bunch large and uniform. Ripens about ten days earlier than Concord. We have investigated many new grapes in the past ten years and found no other grape with so many excellent points.

The Hubbard Grape being of better quality, a better shipper, better size, healthy foliage, a strong grower and earlier ripening makes it a more desirable grape to plant than either Concord or Niagara. Price, 75c each; 12 for $7.50.

Whitefield, N. H., June 2, 1925.

The strawberry plants came in excellent condition.

Florence Churchill.
New White Grape "Portland." The earliest of all grapes. Large bunch and berry. Resembles Niagara in quality. Proved sweet, dry and of fine flavor. Vine a vigorous and healthy grower. This is the coming white grape and should be in every vineyard. Originated at Geneva, N. Y., Experiment Station. Price, $1.00 each.

Delaware. Vine moderately healthy and vigorous. Bunch small, but compact, berries small to medium in size; red in color and of excellent flavor. Price, 40c each; 12 for $4.00.

Worden. Vine moderately grower, very hardy and productive. Grapes very large, thin skin, very fine flavor, blue black in color and fine for home use or nearby market. One of the earliest, ripening about 7 days before Concord. Price, 35c each; 12 for $3.50.

Green Mountain. Vine a thrifty, healthy grower, producing an immense crop of medium sized berries. Color, medium sized bunches. The color is a rich yellowish white. The flavor is sweet and delicious. About the earliest grape to ripen here. Price, 75c each; 12 for $8.50.

Catawba. One of the longest keeping grapes in cultivation. Ripens late and can be kept in good condition a long time. Flavor sprightly and attractive. 

General List of Grape Vines

Prices given are for No. 1, 2-year-old vines. One-year vines will be supplied at two-thirds these prices and three-year vines at 50 per cent or 1/2 additional to the prices of 2-year-old vines. For instance, 2-year-old Concords are 25c each. One-year-olds will therefore cost 18 and two-thirds cents and 3-year-olds 37 1/2 cents each.

The supply of genuine, true-to-name grape vines was never shorter than it is this year. This is due first to the great demand for them to plant for producing home-made wine and grape juice, and second to the extreme drought and extreme weather we had during the growing season of 1945. We advise those who wish to plant and quantity of vines, to order as early as possible.

Neponset Waterproof Flower Pots

Take the place of Earthen Pots, at less than half price, and in most cases are Just as good. A 2 1/2 inch, $1.00, are A. No. 1 stock.

Advantages of Neponset paper pots over Earthen Pots:
1. They save all losses from breakage.
2. They weigh just one-tenth as much. Easier to handle. Reduce freight and express bills.

St. Johns, Newfoundland, June 1, 1925.
I received the strawberry plants and rose trees on Saturday, May 30th, all in good condition. Mrs. Geo. Bursell.

Cumberland Co., Pa., May 21, 1925.
I was hoeing my 1000 baby apple trees today and every tree was living and two and one had tramped on them. They are out in leaves as large as large as a dime. I am more than pleased.

A. F. Simpson.
FRUIT TREES

The varieties of fruit trees we offer below are such as can be particularly recommended, and are best adapted to the climate of New York. Any variety desired and not listed, we can generally supply.

Varieties of Special Merit

Oswego. The Oswego apple originated some 8 miles from our nursery. It was found as a young tree that had grown up under an old Northern Spy tree whose limbs had split down with the great crop of fruit and lay prostrate on the ground for several years. It apparently had grown as a sprout from the roots of the Northern Spy tree. The tree is a nice, clean grower like the Spy and the apples are very similar in shape, size and general appearance to the Spy, but it has a beautiful, clear red skin and is not streaked like the Spy, but has small dots at the calyx end of the fruit, leading its originator to think that it is a cross of the Spy and Spitzenburg, as it has a flavor suggesting both varieties. Its season of ripening is about with the Spy, but it keeps even longer in the spring, being slightly less juicy than the Spy. There is no doubt in my mind that this will become a famous apple for market when its merits are better known. We now have about 1,500 fine trees for sale. Price, 2- and 3-year-old trees, 5 to 7 ft., $1.50 each; $15.00 per 12; $100.00 per 100. Medium size, $1.00 each; $10.00 per 12; $75.00 per 100.

St. Lawrence. This is an apple in much favor in Northern New York and the St. Lawrence Valley on account of its hardness, productiveness and fine flavor. It ripens in September and early October. Color, greenish yellow, splashed with black streaks. We have nearly 500 trees for sale. Price, $1.25 each; $12.50 per 12; $90.00 per 100. Medium size, $1.00 each; $10.00 per 12; $75.00 per 100.

The Oregon Apple

Oregon. This is a new apple from the state of Oregon. The tree is a rapid grower and very productive of extra large apples. The fruit is reddish yellow, fine flavored and fine for desert or eating fresh. It has the same peculiar shape at the Calyx end that the Delicious apple has. Now introduced by us for the first time. See illustration. Price of trees, 5 to 7 ft., $4.00 each. Hubbardston’s Nonesuch. One of the most popular of apples. Ripening in October and lasting well until January. Skin yellow with reddish blush, sometimes called the American Blush. It is so productive that it is inclined to overbear and kill the trees if not sufficiently fertilized.

Yellow Transparent. The earliest apple known, ripening in July. The tree is entirely hardy and begins to bear a year or so after being transplanted. Our trees bore in the nursery row last year and this year are loaded with fruit buds. Fruit light yellow, medium size and of fair quality.

Greasy Pippin (Orrley). We have a few trees of this fine old favorite. I know of a tree which must be 75 years old which is still vigorous and fruitful. I ate apples from under it over 45 years ago.

Grandmother’s Pie Apple (Rib. Pippin). This apple grew in my grandmother’s garden and was esteemed for its fine culinary qualities, although probably grown for eating fresh.

Autumn Apples. Duchess of Oldenburg, Farmouse (Snow), Wealthy, Gravenstein, Pound or Pumpkin Sweet, 20 Ounce, Late Strawberry, Alexander, Fall Pippin, Paradise Sweet, Wolf River, Greasy Pippin (Rib.), Grandmother’s Pie Apple (Rib. Pippin) and St. Lawrence.

Crab Apples. Hyslop Crab and Transcendent Crab.

Price of Apple and Crab Trees. Standard trees, Price, 10-year class, 5 to 7 ft., 2- and 3-year-old, 75c each; $1.50 per 12; $95.00 per 100. Medium sized trees, 2- and 3-year-old, 4 to 5 feet, and 1-year-old buds 3 feet and under, 50c each; $5.00 per 12; $40 per 100.

Extra Large Transplanted Trees. $1.25 each; $12.50 per 12; $100 per 100.

Dwarf Apple Trees. First size, 85c each; $8.50 per 12; $60.00 per 100. Medium size, 60c each; $5.00 per 12; $45.00 per 100.

Plums

European Varieties. Bradshaw, Fellenden Prune, German Prune, Guili, Grand Duke, Imperial Gage, Italian Prune, Lombard, Moore’s Arctic, Pond’s Seedling, Reine Claude, Shippers Pride, Shropshire, Damson and Yellow Egg.

Price of Plum Trees. 2-year-old No. 1, 5 to 7 feet, $1.00 each; $18.00 per 12; $75.00 per 100.

Cherries

Sour Varieties. Dyehouse, Early Richmond, English Morello, May Duke, Large Monitomorency, Olivet. Oshime. Price, $1.00 each; $10.00 per 12; $75.00 per 100.

Sweet Varieties. Bing, Black Tartarian, Governor Wood, Lombard, Napoleon, Schmidt’s B.J., Windsor, Windsor Spanish. Price, $1.25 each; $12.50 per 12; $100 per 100.

Pears

Summer Varieties. Bartlett, Clapp’s Favorite, Imperia and Willand.

Autumn Varieties. Duchess, Garber, Beurre, Bosc, Beurre de Anjou, Pleishman Beauty, Seekel, Sheldon, Wardian-Seekel and Vedder’s.”

Price of Pear Trees. First Class, 5 to 7 feet, 2-year-old, $4.25 each; $42.50 per 12; $300.00 per 100.

Quince

Varieties. Bourget, Champion, Orange, Rheas Mammoth. Price: $1.25 each; $12.50 per 12; $100 per 100.
Peaches

Varieties. Belle of Georgia, Carman, Crawford Early, Crawford Late, Elberta, J. H. Hale, Hilley, Rochester, Champion, Greensboro, Mountain Rose, Globe, Stump the World and Niagara. Price, 60c each; $6.00 per 12; $40.00 per 100. For First size trees. Medium size, 50c each; $5.00 per 12; $30.00 per 100.

Apricots

Varieties. Harris, Moorpark, Alexander, J. L. Budd and Alexix. Price: $1.00 each; $10 per 12; $75 per 100.

Grafting Wax

Made of best materials from recipe furnished by Prof. Stafford of College of Agriculture, Syracuse University. Price 35c per 1/4 lb.; 1 lb., $1.00.

Peaches

We can supply scions of most common varieties of apples at 40c per dozen; $2.50 per 100. Scions of Oswego, St. Lawrence, McIntosh, 50c per 12; $3.00 per 100. No scions of Oregon for sale.

Apple Scions for Grafting

These are fully described in our annual catalogue issued in January. You can still make baby trees for you if scions are dormant and sent us at once. Price, you to furnish scions, 75c per dozen; $4.00 per 100; $35.00 per 1,000. We have a few thousand baby trees made up, which we will sell at the above prices. Write for list of varieties which we have. If you want baby trees made of Pear, Plum and Cherry, the prices are double those of the apple. Scions for grafting must be strictly dormant (not started) for best results.

Gold Coin. One of the most beautiful and desirable varieties grown. Very productive, of medium sized tubers. Never ugly or misshapen.

Russet. An enormously productive hardy variety. Much thought of by professional growers who are after a potato that will produce well under all conditions.

Hastings. This potato was grown from the seed by a Mrs. Tackley, who lives 14 miles from us. It was named and introduced by us a few years ago. We have sold it from one end of the country to the other, and it has given universal satisfaction. The vines are extremely rampant growers and must have plenty of room in order to do well.

Sir Walter Raleigh. An enormous producer. This potato is very popular.

Seed Potatoes

Axtell's Early. This variety originated in southeastern New York and is of the Cobbler type. It is the most productive extra early potato that we have ever tested. In 1924, we raised 700 bushels on 2 acres of ground. The vines are thrifty growers and not so subject to potato diseases as Cobbler and some other potatoes. At several experiment stations, as well as in the hands of skilful growers, it has shown its superiority over the Cobbler. It is a roundish potato with deep eyes and of the very highest quality when cooked. Price of Axtell's Early: 25c per lb.; 1 pk. $1.50; 1 bu. $5.00.

Irish Cobbler. This is the best known and most extensively planted of any extra early potato. It is an irregular shaped potato with rather deep indentations which is a sure sign of high quality. It is a good grower and a fair yielder and of the best quality when cooked. The potatoes are white and sell well in market. Grown all over the United States for early first early.

Mrs. Dimon. This potato was received by us from Mrs. R. J. Dimon who used to grow plants, etc., for us on contract and who is now deceased. We named the variety for her and no more fitting monument to her memory could be left. We have planted it 3 years now and it outyields all others with us and everybody who has it tells us the same story. It is medium to late, of good shape and enormously productive. It is of the blue stem class. The shape is very similar to the Bull Moose, the prettiest bin of potatoes we ever saw was one of this variety owned by Hon. John Fidler of this county.

Green Mountain. The standard variety for market. Very productive of fine flavored, fine cooking potatoes. A white sprout variety.

The Axtell's Early Potato

Price of Potatoes. The same for all varieties, 1 lb., 25c; 1 peck, $1.50; 1 bushel, $5.00.

LETTERS FROM CUSTOMERS

Burlington, Mass., March 6th, 1926.
The plants I got of you last spring were fine, especially the Champion Everbearing. They bore berries up to the 10th of November.

James R. Mackenzie.

St. Lawrence Co., N. Y., Feb. 4th, 1926.
The plants I had from you last year did well. Thanking you.

Will McC. Broome.

Jackson County, Iowa, 2-28-1926.
I was well pleased with the results of the things last year.

Moody J. Cole.

Wayne County, N. Y., Jan. 25th, 1926.
I bought some Redpath raspberry sets of you last spring. They made a fine growth and had a few berries on them. Am well pleased with them.

Chas. Smith.

Westchester County, N. Y., Jan. 16th, 1926.
Perhaps you will be glad to know that everything I ever purchased from you thrived wonderfully.

Andrew Macrery.
Everybody who leads an indoor life, is made more

**ASPARAGUS**

Asparagus is the first vegetable to come in spring and is very popular with those who know its value. It is not only a fine dish, rivalling green peas in palatability, but it has great medicinal value for the kidneys. Every farmer and householder should have a generous supply and if at any time he has a surplus, a ready market can be found. When properly set and cared for, it will last a lifetime. We find asparagus nearly as profitable as strawberries and the demand is almost impossible to supply. It should be prepared for the table much like green peas.

**How to Grow Asparagus.** The land for asparagus must be elevated and well drained. The soil must be rich, mellow and deep. It must not be planted should be allowed to get strong and stocky. In cutting, be careful not to injure the young shoots that are just about to come through the ground. If the asparagus bed is annually fertilized and kept free from weeds and grasses, it will last a long time and grow larger as it ages. Salt spread evenly over the rows will kill the weeds and not injure the asparagus roots if applied in very early spring. A very successful asparagus grower tells us that the great secret of getting large crops of asparagus is not so much in fertilizing as in keeping the surface of the asparagus bed well stirred, not allowing it to get baked and hard. He cultivates thoroughly before the shoots start early in spring, and in the height of the season he cuts the bed very closely, removing all shoots that show and then plows furrows over the rows and harrows down, allowing subsequent shoots to come up through the fresh loose soil. After cutting stops, about July 1st, the space between the rows is kept thoroughly cultivated, the plants hoed and all weeds pulled out.

**Price of Asparagus Roots.** We can supply 2-year old roots of Conover's, Colossal, Palmetto, Barr's Mammoth, Columbian White, Donald's Elmira, Reading Giant and Giant Argenteuil at 25 for 75c; 100, $1.50; 1000, $12.

**Extra Heavy Roots.** We have a quantity of roots 3 years old, very large and fine for immediate results and forcing, that we will sell at 25 for $1.00; 100, $2.50; 1000, $20. We can supply 1-year-old roots at 25 for 50c; 100, $1.25; 1000, $10.

**Martha Washington Asparagus.** This new asparagus went out last year Department of Agriculture at Washington, as superior to all other varieties on account of freedom from blight and other diseases. It is claimed to be hardier and more productive than other kinds and more satisfactory in every way. Price: 25 for $1.00; 100, $2.50; 1000, $20, for strong 2-year roots.

**Holt's Mammoth Sage Roots**

This sage does not seed. The leaves are extra large and produced in great quantity. Propagated by division of the roots. In great demand for flavoring meats and for medicinal purposes. We sold 46 lbs. to a wholesale drug firm in 1918. We have a large quantity of sage roots of our own growing. This variety does not seed but expends its energy in making large plants in one season which are covered with very large leaves which may be gathered several times during the season. These leaves, when dried, are used for flavoring meats, etc., and for medicinal purposes. The roots may be divided and reset every few years. Each small plant will develop on rich soil in one season so that it can hardly be covered with a 5-gallon bucket of water. Price: 20c each; $1.50 per 12; $2.25 per 50; $7.50; 1000, for $60.

Sage leaves for flavoring with 1 oz. of a 10th lb., 1 oz. of a 10th lb. 3c; 1 lb. 1$.00.

Syracuse, N. Y., March 5th, 1926.
I purchased some of your scions for grafting three years ago and all bore last year.

Mrs. Laura N. Hendricks.
Orange Co., N. Y., March 6th, 1926.
The Oswego apple tree I bought of you is growing fine.

Charles Otto.
Rhubarb or Pie Plant

This is one of the first vegetables to start in the spring and furnishes material for pies and sauces before anything else in the plant line is available. Pie plant is not only palatable but is healthful, tending to clear the blood of impurities in the spring after a long hard winter. The roots are very hardy and can be made to grow readily if given rich soil and clean culture. We should plant them in rows about 4 to 5 feet apart, with plants about 12 to 18 inches apart in the rows. All that is necessary is to keep the land clean of weeds and well cultivated. Each fall is a good plan to put a fork full of rich manure about each plant to facilitate growth. Wire boxes are placed over the plants in early spring to exclude the light and keep away the frosts and cold winds. The stalks will make a large tender growth much earlier than as though they were left exposed. The growth will be all stalk and no leaf. After the plants have been growing for several years they will do better if taken up and divided and reset.

Limosus. Early, tender, delicious, finest flavor, best variety for table use. Price: 15c each; $1.25 per 12; $8.00 per 100.

Johnson Rhubarb. The largest and most productive variety. Fine quality. Price: 35c each; $6.00 per 12.

Rhubarb for forcing. Extra large roots for forcing. Price: 25c each; $2.50 per 12; $15 per 100.

Horseradish Roots

A new variety discovered by United States Agricultural Explorer, David Field, in Bohemia about twenty years ago. Cuttings from this Horseradish plant in April will produce fine large roots for grating the following October; and if left in the ground until spring will grow to enormous size. It is free from disease. Yields of four tons to the acre have been recorded. Grows in any kind of soil and will stand dry weather as well as potatoes. In planting Horseradish, fit the soil same as for strawberries and plant the cuttings point downward, with the top of the cuttings about 1-inch below the surface of the soil. Set about 1 by 4 feet apart about 10,000 cuttings to the acre. Cultivate same as any garden crop. In about 2 weeks the leaves will show above the surface and in due time will be ready for use. Weeds will neither bother it much. Horseradish sells in the market at 5 to 10 cents per pound, and to the pickling houses at 15c to 20c per pound. Price: 10c per 100; $1 per 1000.

NEW VARIETY MALINER KREN

Our Frost-Proof Cabbage Plants should be set four to six weeks earlier than home grown plants. We can all orders sent in promptly.

WE ADVISE YOU TO ORDER EARLY

As soon as you receive your order it will be forwarded to our growing station, and from there will be shipped direct to you. Occasionally rainy weather delays shipment. Therefore, we advise you to send your order in two weeks before you will need the plants.

Varieties: Early Jersey Wakefield, Charleston Wakefield, Copenhagen Market, Succession and Early Fast Deliverance.

Prices: By Mail Postage Paid: Lots of 100 and 200 plants at 75c per 100 plants; 500 plants for $2.25; 1,000 for $4.00.

By Express, buyer paying express charges: 1000 to 4,000 at $2.50 per 100; 5,000 and over $2.00 per 100.

Express shipments are packed 1,000 and 2,000 to the package. Weights of 20 lbs. to the 1,000.

FROST-PROOF ONION PLANTS

Our Frost-Proof Onion Plants are just as hardy as the Frost-Proof Cabbage Plants, and are growing in favor every year. We offer the two most popular varieties: White Bermuda and Yellow Bermuda.

Prices on Onion Plants same as Cabbage Plants.

FROST-PROOF CABBAGE PLANTS

Our Frost-Proof Cabbage Plants can be set four to six weeks earlier than home grown plants, and will Mature Heads Two to Three Weeks Earlier.

These plants are grown for us in South Carolina and Georgia, where conditions are ideal for the growth of hard, tough plants in the open field. The seed is sown from October to February and the plants grow slowly and in about two months are hard and stalky enough to ship to any part of the United States. They will stand a temperature of 20 degrees, and may be set in the open field much earlier in the spring than hot-bed plants. When set

Some Frost-Proof Cabbage Plants

FROST-PROOF CABBAGE PLANTS

Field Grown Plants, ready in May and June. Varieties: Earliblatt, Delaware, Semeck, Drumhead, Late Drumhead, Potters, Brunswick, Mammoth Rock Red, Winningston, etc., 50c per 100; $3.00 per 1,000; $20 per 10,000. If in need of a larger quantity of cabbage or other plants, please write for our prices. We sell cabbage plants as low as 1.00 for 1,000, late in the season last year. We make a specialty of the Golden Self Blanching Cabbage, which come in very low prices in large lots.

TOMATO PLANTS

 READY IN MAY, JUNE AND JULY. Varieties: Making, Creeping, Early Treasure, and some new varieties. Price: 25; 50; 100; $1.50; 1,000; $5.00.

Greenhouse Grown. 25, 50c; 100, $2.50; 1,000, $20. 100, $2.50; 1,000, $50. 1,000, $100.

Red Rafflin Corn. 10c per lb.; 10 lbs., 75c; 100 lbs., $4.50.

Broom Corn. 15c per lb.; 10 lbs., $1.00; 100 lbs., $6.00; 25c.

Crimson Clover. 25c per lb.; 10 lbs., 1.25; 100 lbs., $10.00.

White Clover. 60c per lb.; 10 lbs., $5.00; 100 lbs., $46.00.

Sweet Clover (white.) 20c per lb.; 10 lbs., $1.50; 100 lbs., $12.00.

Fancy Redtop (solid seed.) 50c per lb.; 10 lbs.; 14.50; 100 lbs., $2.25.

Kentucky Blue Grass. 55c per lb.; 10 lbs., $6.00; 100 lbs., $49.00.

Canada Blue Grass. 50c per lb.; 10 lbs., $4.50; 100 lbs., $14.00.

Orchard Grass. Lbs., 10 lbs., $2.50; 100 lbs., $22.00.

Central Park Lawn Grass Mixture. 35c per lb.; 10 lbs., $3.00; 100 lbs., $26.00.

Hairy or Winter Vetch. 1 lb., 25c; 10 lbs., $2.00; 100 lbs., $15.00.

ORNAMENTAL TREES

American Elm. 8 to 8 feet, $1.00; $7.50 per 12.

Purple Leaved Beech. 3 to 4 feet, $3.00 each.

White Birch. 5 to 8 feet, $1.75.

Cut Leaved Weeping Birch. 5 106 feet, $2.25.

Catapula Bungil. 5 to 6 feet, $1.75 each.

Catapula Speciosa. 3 to 4 feet, 50c each; 6 to 8 feet, $1.50.

White Flowering Dogwood. 4 to 6 feet, $1.00.

Red Flowering Dogwood. 3 to 4 feet, $1.75 each.

Buchel's Flowering Crab. 3 to 4 feet, $1.50 each.

Double Horse Chestnut. 2 to 3 feet, $2.00 each.

Double White Flowering Horse Chestnut. 8 to 10 feet, $4.00.

Red Flowering Horse Chestnut. 4 to 6 feet, $4.00.

Hackberry. 6 to 8 feet, $1.25.

Honey Locust. 4 to 7 feet. 75c each.

Judas Tree. 4 to 5 feet of Lapton strawberry

Weeping Linden. 4 to 6 feet. $4.00 each.

Magnolia Glauca. 3 to 4 feet, $2.25.

Abe Leaved Magnolia. 8 to 12 feet, $6.00 each.

Norway Maple. 10 to 12 feet. $2.25.

Scarlet Maples. 6 to 8 feet, $2.50 each.

Tamaraweri. 3 to 4 feet, 25c each; 25 per 12.

Silver Leaved. 3 to 4 feet, 25c each. $2.50 per

12.

6 to 8 feet, 75c each.

Sugar of Red Maples. 6 to 7 feet, 75c each.

Wier's Cut Leaved Maple. 10 to 12 feet. $2.00 each.

Tea's Weeping Mulberry. $2.50 each.

Red and Scarlet Oak. 6 to 8 ft., $3.00 each.

Sassafras. 4 to 6 feet. 75c each.

Carolina Poplar. 6 to 8 feet, 50c; $5.00 per

12.

Lombardy Poplar. 6 to 8 feet, 60c each; $6 per 12.

Tulip Tree. 6 to 8 feet. $1.25.

Europena Sycamore (Oriental Plane). 8 to 10 feet. $1.00 each.

Hawthorns, Double Pink and Double White. 3 to 4 feet. $1.25 each.

Paul's Double Scarlet Thorn. 4 to 5 feet, $1.75.

Yellow Wood. 4 to 6 feet. $2.00.

Wisconsin Weeping Willow. 5 to 6 feet, 50c each.

I received the shipment of grass plants in due time. They were well packed and still moist.

F. W. Sheffield.

Redlands, California, 1-9, 1926.
DEPARTMENT OF FRESH FRUITS

During the past few years, we have sold a quantity of fresh fruit to our patrons, through the medium of this department in our catalog. It would be best for all concerned to send in orders as much in advance of the fruiting season and before the time they are wanted, as is possible. It would often be more satisfactory to correspond with us as to prospects of supply and demand; and we would, therefore, much prefer that patrons write in before sending us orders for fresh fruit.

**Strawberries**

We supply summer bearing strawberries in June and July; the season runs usually from June 15th to July 15th. **Price, 10c to 30c per quart.** We supply fall bearing strawberries in August, September and October. **Price, 25c to 35c per quart.**

**Raspberries**

Ready in July and August. **Black Cap Raspberries, 20c to 35c per quart.** Purple Raspberries, same price as Black Caps. Red Raspberries, 30c to 50c per quart. **Crates hold same as for strawberries.**

**Blackberries**

Ready in August and September. **20c to 35c per quart. Crates hold same as for strawberries.**

**Currants and Gooseberries**

Ready in July and August. **Crates hold same as for strawberries. Price, 15c to 25c per quart.**

**Peaches**

**Price, $3.00 per bushel. Baskets hold one-third, one-half or one bushel.** The regular small peach basket you see in the market holds one-third bushel, so if you buy a bushel of peaches at $3.00, they cost you $1.00 per basket.

**Apples**

Baldwins, Greenings, **$1.00 to $2.00 per bushel.** Northern Spy and other fine sorts, **$1.50 to $2.50 per bushel.** Packed in barrels of 3 to 4 bushels.

** Cherries**

**Ready in July. Price 15c to 25c per quart. In same packages as strawberries.**

**Plums**

**$1.00 per peck, $3.50 per bushel. Ready in August and September.**

**Grapes**

**Worden, Niagara and Concord, packed in 3/4 lb. baskets, 25c to 50c per basket. In 8 lb. baskets, 50c to $1.00.**

**Pears**

**Bartlett, Clapp’s Favorite, $2.00 to $3.00 per bushel. Seckel and Sheldon, $2.50 to $3.50 per bushel. Packed in bushel baskets.**

Broome Co., N. Y., March 13th, 1926.

We receive 600 apple roots on March 11th. Their are strong roots and came in good shape. Paul Zemek.

**ALL KINDS HARDY PERENNIALS**

We offer the most complete collection of Hardy Perennials in America. It includes such well known kinds as Adams Needle, Bleeding Heart, Chocolate Bells, Corn Flower, Fox Glove, Forget Me Not, Flowering Sprue, Gold Flower, Garden Pinks, Hollyhocks, Hardy Meadow Sweet, Oriental Poppy, Perennial Peas, Phlox Iris, Potentilla, Lupine, Mallow Marvels, Stone Crop, Stoke's Aster, Red Hot Poker, Snow in Summer, Wind Flower, White Candytuft, etc. Afterwards, when possible.

**Anthemis Tinctoria Kelwayii. (Hardy Marguerite.)** 20c each; $2.00 per 12; $12 per 100.

**Aquilegia. (Columbine.)** 20c each; $2.50 per 12; $15 per 100.

**Arabis Alpina. (Rock Cress.)** 15c each; $1.50 per 12; $10 per 100.

**Anchusa. (Dropmore.)** 25c each; $2.50 per 12; $15 per 100.

**Anemone Japonica. (Wind Flower.)** 50c each; $2.50 per 12; $10 per 100.
It is never too late to rectify a mistake or make good

Helenium. Bigelovii, Riverton Gem. 20c each; $2.00 per 12; $15 per 100.

Helianthus. (Sunflower). Augustifolia. Maximiliana. Miss Moflah, Mollis Grandiflora, Wolly Dod. 15c each; $1.50 per 12.

Heliospis. Pitcherioides, Scabrida Zinniiflora. 25c each; $2.50 per 12.

Hemorocallis. (Yellow Day Lilies). Lutetia, Mid- dendorfii, Thumrigel. 20c each; $2.00 per 12.

Hesperis Matronalis. (Lavender), (Alba), (white). 20c each; $2.00 per 12.

Hesperis. Suganea, (Coral Bells), Brizoldes. 20c each; $2.00 per 12.

Hibiscus. (Mallow Marvels) mixed colors, Crimson Eye, pink, red and white. 15c each; $1.50 per 12; $10 per 100.

Hollyhocks. Double and single. Colors, crimson, black, yellow, white, maroon and pink. 15c each; $1.50 per 12; $10 per 100.

Hyacinthus Candidans. 10c each; $1.00 per 12.

Hypericum. Henryi. (Gold Flower.) 60c each; $6.00 per 12.

Iberis Sempervirens. (White Candytuft.) 25c each; $2.50 per 12; $15 per 100.

Indian Strawberry. (Fragaria Indica.) 15c each; $1.50 per 12.

Iris. German or Liberty. Purple, yellow and blue. 15c each; $1.50 per 12; $8.00 per 100.

Iris. German or Liberty. Pink and white shades. 20c each; $2.00 per 12; $15 per 100.

Iris. Japan. Blue and shades of blue. 20c each; $2.00 per 12; $15 per 100.

Lathyrus Latifolius. (Hardy Perennial Pea,) Pink, red and white. 25c each; $2.50 per 12.

Liatris Pyenostachya. (Blazing Star or Gay Feather.) 25c each; $2.50 per 12.

Lilium. the Varieg. 75c per 12; $4.00 per 100.

Linum Flavium. (In yellow, white and blue.) 15c each; $1.50 per 12; $10 per 100.

Lobelia Cardinals. (Cardinal Flower.) 20c each; $2.00 per 12.

Lupinus Polyphyllus. (Lupine,) Blue and white. 25c each; $2.50 per 12; $15 per 100.

Lychnis. Chalcedonica, scarlet, Alba, white; Viscaria, Tridentata. 20c each; $2.00 per 12.

Lythrum. Roseum Superbum. 20c each; $2.00 per 12.

Maiden Pink. (Dianthus Deltoide.) 15c each; $1.50 per 12.

Monarda. Didyma. (Burgomart.) 20c each; $2.00 per 12.

Myosotis Palustris. (Forget-Me-Not.) 20c each; $2.00 per 12; $15 per 100.

Myrtle. (Hardy.) (Vinca Minor.) 15c each; $1.50 per 12; $10 per 100.

Paeony. Cardinals. (Japanese Spurge.) 20c each; $2.00 per 12; $12 per 100.

Pansies. 10c each; 50c per 12; $3.50 per 100.

Pentestemon. Babatus Torrey (Scarlet Barred Tongue.) 20c each; $2.00 per 12.

Penstemon. Digitalis. Purple and white. 20c each; $2.00 per 12; $15 per 100.

Papavir Orientalis. (Oriental Poppy.) 25c each; $2.50 per 12; $15 per 100.

Papavir Nudicaule. (Iceland Poppy.) 20c each; $2.00 per 12; $12 per 100.

Shasta Daisy

Mason Co. Ky., June 22, 1925.

Received my two settings of Barred Rock eggs

on the 21st of May. I set them the following after-noon and about a week ago 14 chickens hatched, and are doing well.

Mrs. Winnifred Lyston.
Oriental Mammoth Poppy

Mrs. Charles Door. A beautiful shade of lavender.
Panthecon. Rose-pink.
Pechou d'Island. Lavender-rose.-cerise.
Professor Virchow. Brilliant carmine, overlaid with orange scarlet.
Rhinelander. Salmon pink.
Rijnstrom. A lovely shade of rose pink, very large.
Sir Edward Landseer. Bright crimson.
Sunset. Dark rose pink.
Thor. Deep salmon pink.
H. O. Wiggers. A delicate shade of shell pink with deep pink eye, almost scarlet.
Mrs. Wm. Jenkins. Pure white.
25c each; $2.50 per 12; $18 per 100.
Plimrose. (Moss Pink, or Creeping Phlox.) Rosa, rose-pink; Alba, white. 25c each; $2.00 per 12; $15 per 100.
Playsalis Fanchet. 20c each; $2.00 per 12.
Physostegia. Speciosa Alba, Virginica. 20c each; $2.00 per 12.

Mushroom Spawn

American Spore Culture Spawn, produced from original spore cultures under the new French process which permits the indefinite reproduction of selected varieties without dilution of the strain. Positively the most vigorous and prolific spawn on the market. Each brick weighs from 1 and one-fourth to 1 and one-third lbs., and will produce 10 square feet of beds. We keep on hand the white variety which is generally preferred in the markets, but can supply the cream or ivory and crimson, per brick, 30c; 5 bricks, $1.25; by express or freight, 10 bricks, $2.00; 25 bricks, $4.50; 100 bricks, $17.

Wartown, N. Y. Oct. 29, 1925.

Received plants O. K. Many thanks.

Greene Co., N. Y. April 15, 1925.
I received the berry plants yesterday. They are in the finest condition of any plants ever received. The quality of plants and labeling is liberal and count very satisfactory.

J. B. Elmdorf.

July 29, 1925.

The Superbly fruited ever good this spring and are looking well for the fall crop.

Lawrence Blumer.

HARDY GARDEN PINKS

Elsie. Bright red, maroon center.
Elizabeth Peters. Single flowers, red, maroon center.
Gertrude. White, variegated with maroon.
Jean. (Everblooming.) White with purple center.
Pluteodon Japonica Grandiflora. (Balloon Flower.) Blue or white; Mariesi. 20c each; $2.00 per 12.
Plumbago Larpentea. (Leadwort.) 20c each; $2.00 per 12; $15 per 100.
Polemonium Coeruleum Grandiflora. Blue and white.
Primula. Veris (English Primrose), Vulgars (Cowslip). 25c each; $2.00 per 12.
Pyrethrum. Hybridum, mixed colors; Alba, white; Parthenium Aureum, Parthenium Aureum Laciniatum, Parthenium Aureum Selaginoides, Roseum. 20c each; $2.00 per 12; $15 per 100.

Tuscia Saxifraga. 20c each; $2.00 per 12.
Valeriana. Rubra, red; Alba, white.
Veronica Longifolia Subsessills. (Blue Bird Flower.) Deep blue. 20c each; $2.50 per 12.
Veronica. Repina. Light blue. 25c each; $2.50 per 12.

TALL AFRICAN MERIGOLD SEEDS AND PLANTS

Free Gift With Every Order.

Every person who orders plants, trees or other gooda from this catalogue to the amount of $2.00 or more, is entitled to a free packet of either Tall African Merigold or Giant Late Flowering Aster seeds. If your order amounts to $6.00 or more, you can select one packet each of Asters and Merigolds. If you prefer, we will send you six (6) transplanted plants of the golden yellow and Madame Merigolds, three of each color. These orange and yellow double flowered Merigolds are considered by many even prettier than Asters. These plants grow from one to two feet in height and bloom profusely. The blooms are very double and grow very large, sometimes several inches in diameter. These are the strong, stocky, transplanted plants. 6 for 30c; 12 for 50c; 25, 75c; 100, $2.25; 1,000, $20.00. If you prefer, you can have Asters plants in place of Merigolds. Price of large, late flowering Asters from best seed obtainable, 20 varieties and colors mixed. 12 per 30c; 25, 50c; 100, $1.50; 1,000, $12.00. These are transplanted, write for prices late in the season for field grown plants. Price of Asters or Merigold seeds, 25c per packet.

Franklin Co., Vt., July 27, 1925.
The plants came this a. m. by parcel post, apparently in fine condition. Thank you for sending the fine plants and prompt. We had 3,000 of the same kind once and they were grand.

Mrs. Isabel Burgess.
Received plants in fine condition. A. R. Cobb.
HARDY ORNAMENTAL SHRUBBERY

Your home is not complete unless it is planted with shrubbery. If we can help you to make a selection of kinds or aid you in planting plans, we are at your service. Write us freely. Some favorite shrubs of ours are: Spirae Van Houtte; Weigella, Eva Rathke; Snowball, Common; Deutzia, Pride of Rochester; Syringa; Hydrangea; Almond and Forsythia.

Flowering Almond. Blooms before the leaves appear, with tassel-like flowers, the whole length of the branches. Season, May. Colors, white and pink, double flowers. Medium size, 75c each; $7.50 per 12. 2 to 3 feet, $1.00 each; $10 per 12.

Althea or Rose of Sharon. Grows 6 to 8 feet high and are useful for tall hedges as well as single specimens. Blooms in August and September. Double flowers in white, red, purple and pink. Medium size, 50c each; $5.00 per 12. 2 to 3 feet, 75c each; $7.50 per 12.

Calycanthus. Grows 5 to 6 feet high, the sweet-scented shrub, the bark smelling like allspice. The spicy flavored, dark crimson flowers come in June. Medium size, 50c each; $5.00 per 12. Large size, 75c each; $7.50 per 12.

Deutzia (Pride of Rochester). Grows 4 to 6 feet high. Flowers large, double white, tinged with blue. Blooms in May and June. Medium size, 50c each; $5.50 per 12. 2 to 3 feet, 60c each; $6.00 per 12.

Other Deutzias. Crenata Magnifica, Crenata Rosea, Gracilis. Medium size, 60c each; $6.00 per 12. Large size, 75c each; $7.50 per 12.

Summer Lilac or Butterfly Bush

Dogwood. Alba (Siberica) white flowers, blood red branches; Alba Spaethi, variegated with yellow; Elegansissima Variegata, white and green foliage; Maniculata (Gray Dogwood) leaves dull green, whitened beneath, flowers white, fruit white; Stolonifer (Red Osier) branches red in winter. Medium size, 60c each; $6.00 per 12. Large size, 75c each; $7.50 per 12.

Elaagnus Longipes. 75c each; $7.50 per 12.

Lilac, Purple. Deliciously fragrant. Purple flowers. Blooming in May. Foliage attractive green. 2 to 3 feet, 75c each; $7.50 per 12. Grows 10 to 12 feet high.

Lilac, White. May be described the same as above, except that the flowers are white. 75c each; $7.50 per 12.

Forsythia. (Golden Bell.) A very handsome upright growing shrub with golden yellow flowers in April and May. Grows 5 to 6 feet in height. Varieties: Intermedia, Suspense, Fortunel, Seiboldi, Viridis and Oima. Medium size, 50c each; $5.00 per 12. Large size, 75c each; 7.50 per 12.

Butterfly Bush or Summer Lilac. Produces plenty of blooms the first season it is set out. Its freedom of bloom, attractive deep violet-rose color and delightful fragrance, create a demand for it everywhere. Is called "Butterfly Bush" because butterflies always hover over it on warm sunny days. 2 to 3 feet, 60c each; $6.00 per 12. 3 to 4 feet, 75c each; $7.50 per 12.

Hydrangea Paniculata Grandiflora. The flowers are rich creamy white, changing to pink, and borne in immense clusters, often more than a foot long. It blooms in August and continues in bloom for months. It is entirely hardy, enduring the severest winters with no protection. Will grow anywhere, in any soil. Bush form, medium size, 60c each; $6.00 per 12. 2 to 3 feet, 75c each; $7.50 per 12. 3 to 4 feet, $1.00 each; $10 per 12. Tree form, 2 to 3 feet, $1.25 each; 3 to 4 feet, $1.75 each; 4 to 5 feet, $2.50 each.

Hydrangea. (Hills of Snow). Comes into bloom just after the passing of all the early spring flowers, while its long flowering season, from June to late August, makes it an acquisition on any lawn. Succeeds in partial shade, but does best in full sun. Flowers pure white, changing to green instead of bronze, as do other hydrangeas. Medium size 50c each; $5.00 per 12. Large size, 75c each; $7.50 per 12.

Honeysuckle. Bears a profusion of lovely flowers in May and June, followed by translucent berries in the fall. Grows 6 to 10 feet high. Colors white, pink and yellow. Medium size, 60c each; $6.00 per 12. Large size, 75c each; $7.50 per 12.

Japan Quince. Very ornamental in early spring as its bright scarlet flowers completely cover the branches before the leaves are formed. Makes a good hedge, blooms in early May. Medium size, 60c each; $6.00 per 12. 2 to 3 feet, 75c each; $7.50 per 12.

White Lilac Bush
**Spirae Van Houtte**

**Elder.** (Golden.) 2 to 3 feet, 75c each; $1.75 per 12.

**Snowball, Japan.** Flowers in large globose heads. It is white, not as large as the bush. Blooms in May. Medium size, 75c each; $7.50 per 12. Large size, $1.00 each; $10 per 12.

**Japanese Lilac.** 75c each; $7.50 per 12.

**Snowball, Common.** Grows 6 to 8 feet high, the old-fashioned snowball. Medium size, 60c each; $4.00 per 12. Large size, 75c each; $7.50 per 12.

**Snowball, High Bush Cranberry.** 75c each; $7.50 per 12.

**Strawberry or Spindle Tree.** 1.00 each; $10 per 12.

**Russian Olive.** 75c each; $7.50 per 12.

**Sumac (Cut Leaved).** A hardy plant with beautiful fern-like leaves milky white on underside, changing to a brilliant scarlet in autumn. (Staghorn) a large shrub or tree, brilliant foliage, and scarlet fruit in autumn 75c each; $7.50 per 12.

**Spirae Van Houtte or Bridal Wreath.** The finest of all spireas, a most charming and beautiful shrub, which is even beautiful when not in flower with its fine foliage and pendulous branches. When in bloom it is the admiration of everybody with its long "Bridal Wreath" branches loaded with the beautiful small white flowers which are arranged in plume shaped clusters. Makes a fine hardy hedge or may be used anywhere an attractive shrub is wanted. Blooms in May. Entirely hardy and healthy. By many, considered the most valuable of all flowering shrubs, and should not be left out of any collection. Extra size, bushy 3 to 4 feet, $1.00 each; large size, 5 to 6 feet, 75c each; $7.50 per 12; $50.00 per 100. Medium size, 60c each; $4.00 per 12; $35.00 per 100. Small size, 50c each; $3.50 per 12; $25.00 per 100.

**Other Spireas.** Anthony Waterer Aureum (Golden Spirae), Billardii, Bumalda, Colossus, Alba, Fimbriata, Opulus, Pruinifolia, Reveseii, Thumbergii. 2 to 3 feet each. This Evergreen Bittersweet is as green and lovely as any seen this season. 10c each; $1.00 per 12.

**Weigelia.** Eva Rathske. 75c each; $7.50 per 12.

**Weigelia.** Variegata. 50c each; $1.00 each; $10 per 12.

**Mrs. Hutchings and her Clematis Paniculata**

**Hedge Plants**

**Japanese Barberry.** (Berberis Thumbergii). An ideal shrub and hedge plant, beautiful in summer, with its arching, thorny branches, and clusters of small, fine, rich green leaves, which gradually change as autumn approaches, to a unique fiery crimson. The small blossoms eventually turn into berries, which, when ripe, turn crimson and cling to the bush well into the winter, giving it a most pleasing effect. A hedge of Japanese Barberry is one of the most satisfactory things one can have. I have never seen anybody who tired of this plant. As a border, in groups, or planted as a specimen, it is very satisfactory. We have a fine stock of plants, our own growing. Prices: Extra large, bushy, 60c each; $6.00 per 12; $25.00 per 100. Large size, 3-year 50c each; $5.00 per 12; $50.00 per 100. Medium size, 3-yr. 35c each; $3.50 per 12; $25 per 100. 2-year 12 to 18 inches, 25c each; $2.50 per 100; $18 per 100. 2 years, 6 to 12 inches, 15c each; $1.50 per 12; $12 per 100.

**Lodense Privet.** A new dwarf and distinct form of Privet of extremely compact and low growing habit. It has been under observation for the last 5 years and its habits of growth are surely fixed. The foliage is rich dark green and of extreme hardness. It is particularly useful for low hedges and borders as it stands shearing very well and can be kept

**Hardy Vines and Climbers**

**Evergreen Bittersweet.** (Euonymus radicans vege tus.) Holds its healthy green foliage and bears a profusion of red berries during the late fall and winter. Even in February and March, when other vines have lost their leaves or the leaves have turned brown, this Evergreen Bittersweet is as green as in the best growing season of the summer. It is fine for covering old stumps, beautifying garden walls or stone embankments at any exposure. Wall pockets are fine to plant them in. This plant grows moderately fast and to a height of 20 feet. Extra large, $1.00 each; $10 per 12.

**Clematis.** (Paniculata.) Flowers white, small, fragrant; season, late summer. C. Jackmannii, very popular, violet purple, large flowers, June to October. C. Mad. Ed. Andre, velvety red, large, same season as Jackmannii. C. Henryii, large flowers, creamy white, season same as Jackmannii. C. Coccinea, bright scarlet, season July to October. C. Crispa, flowers blue, season June to October. Medium size, 40c each; $6.00 per 12. Large size, 75c each; $7.50 per 12.

**Dutch Pipe.** Medium size, $1.00 each; $10 per 12. Large size, $1.50 each; $15 per 12.

**Honeysuckle.** Hall’s Japan. A strong, vigorous vine with pure white flowers, changing to yellow; foliage remains green well into the winter; very fragrant and covered with flowers almost the entire season. 50c each; $4.00 per 12.

**Boston Ivy.** (Ampelopsis Veitchii.) Clings to brick or stone walls and is unsurpassed as a covering for chimneys, brick buildings, etc. The large pointed leaves are so thick as to give the appearance of shingling the walls with them. Medium size, 75c. Large size, $1.00.

**American Ivy.** (Ampelopsis Quinqufolia.) Has beautiful leaves that become rich crimson in autumn. A very rapid grower. One of the finest vines for covering walls, verandas or tree trunks. 50c each; $5.00 per 12.

**Matrimony Vine.** 75c each; $7.50 per 12.

**Scarlet Trumpet Creeper.** 75c each; $7.50 per 12.

**Chinese Wisteria.** Purple and white. $1.00 each.

**English Ivy.** 35c each; $3.50 per 12.

**Perennial Hop Vine.** 50c each; $5.00 per 12.
low and compact very easily. Prices: 3-year plants, 50c each; $1.00 per 25; $20 per 100. 1-year plants, 30c each; $0.50 per 25; $2.00 per 100.

California Privet. 12 to 18 inches, 10c each; $1.00 per 25; $5.00 per 100. 18 to 24 inches, 15c each; $1.50 per 25; $6.00 per 100. 2 to 3 feet, 20c each; $2.00 per 25; $7.50 per 100.

Amoor River Privet. (North.) 2 to 3 feet, 25c each; $2.50 per 25; $1.00 per 100.

Ibota Privet. 2 to 3 feet, 35c each; $3.50 per 25; $25 per 100.

Dahlias

Our Dahlias are all field grown. They consist of the best varieties of the different types, all colors and shapes. The past summer and fall, we had nearly five thousand clumps in bloom and they were the admiration of everybody who saw them. We picked bushels of them and gave them to the churches and societies for decoration. It was an unusually favorable season for dahlias and ours did their best. We do not sell many named varieties, ours are most all assorted kinds and colors. A collection of twenty-five will insure one each of most every variety we have, as we do not put in but one toe of a clump. We cut the toes in scientific manner insuring one or more "eyes" to each toe. Price, 15c each; dozen, $1.25; 25 for $2.00; 100, $8.00.

Dahlias by Color and Named

Magnificent. The most vigorous growing plant and most profuse bloomer of all varieties we have tried. Blossoms profusely when all other dahlias fail. Beautiful deep lavender, bordering on wisteria. 25c each; doz., $2.50.

White Swan. Pure white, large flowers, beautiful. 25c each; doz., $2.50.

Queen of Yellows. A beautiful profuse clear yellow. 25c each; doz., $2.50.

A. D. Lavonia. Beautiful, soft lustrous pink. A fine variety. 25c each; doz., $2.00.

Frank Smith. Intense purplish-black maroon, tipped white. 35c each; doz., $3.50.

Jack Rose. Brilliant crimson-red with fiery tones in the center of the flowers, overlaid with a soft violet maroon. 25c each; $2.50 per doz.

Japanese Barberry

For Setting Strawberry, Raspberry, Tomato, Cabbage and Other Plants. This tool is so simple, it requires no skill to operate it. Anyone can set strawberry or vegetable plants with Farmer's Strawberry Setter, as it has no complicated mechanism and sets plants more easily and in better shape than any other tool made. It consists of a blade about 3-1/2 inch thick, 3 to 4 inches wide and about 8 inches long, with a handle inserted at right angles with the blade, very similar in shape to an adz. These tools are hand forged, made of the very best material by a local blacksmith, and will last a lifetime if properly cared for. Not only is this tool the very best thing ever devised for setting strawberry plants, but it is also the very best tool for working among the runners after they get thick, and for heeling in, or rather tipping in black raspberry plants. These tools, if made by machinery might be sold for 75c, but ours are all hand forged and worth several times as much. Price, $1.50 each; $5.00 per 4. Your money back if not satisfied. No strawberry grower can afford to be without one.

Lebanon Co., Pa., March 30, 1925.

Some years ago I ordered some Royal Purple raspberry plants and planted them in my back yard and harvested bushels of the berries which cannot be surpassed by anything in the berry line that I ever came across. During last year a disastrous fire broke out and killed them to the ground, therefore, this order for the Royal Purples. Levi S. Peiffer.

Davis Co., Utah, April 29, 1925.

The grapes and currants which I purchased of you have made wonderful growth. We were more than pleased.

Mrs. Edmund F. Conrad.
If you do not plant another flower or anything else to beautify your home or grounds plant at least a dozen or more gladiolus bulbs. They show off to best advantage in a bed or garden and when used as a cut flower, they are unsurpassed, lasting for over a week, blossoming from the base to the extreme tip ends of the spikes.

Price List of Gladiolus

Farmer's Famous Mixture. Contains the choicest varieties that we grow. All best kinds are put in bulbs. Guaranteed to please. Each 12; $5.00 per 100. Extra size bulbs, 2 to 2½ inches in diameter, $1.00 per 12; $7.00 per 100.

Milady's Standard Mixture. A good mixture of all the standard varieties that we grow. Each 12; $3.50 per 100. Largest bulbs, 2 to 2½ inches in diameter, 75c per 12; $5.00 per 100.

Opalescent. Very large, pale rose lavender. An unusual sparkling pure shade, Strong grower and wonderful cut flower variety. One of the very best. Each 50c; doz., $5.00.

Vanity. The tallest growing variety. Soft apple blossom pink. Each 50c; doz., $3.50.

Jasper. Large flowers of subdued red with waved petals and distinct central blotch. Each 25c; doz., $2.50.

Colleen. Light pink with nearly white center. Tall and early. Each 10c; doz., $1.00.

Milady. Creamy white with ruffled petals. Rated 98 per cent as a cut flower variety. Each 40c; doz., $4.00.

Parade. Bright rose flaked scarlet red. Many flowers open at a time. Each 25c; doz., $2.50.

Honey Boy. Tall, graceful, light yellow. Each 10c; doz., $1.00.

Priority. Very large, light pink, with feather of rose pink. A sure winner. Each 50c; doz., $5.00.

**New Gladiolus**

Another Feature of Added Service for Our Thousands of Customers

We have just completed arrangements whereby we are able to supply you with a selection of up-to-date Gladiolus. These are some of the best of the latest introductions of one of the leading Gladiolus experts of this country. With these he has won 5 silver cups and many other prizes at the recent National Shows. One bulb each of the 8 varieties for 50c.

**Opalescent.** Very large, pale rose lavender. An unusual sparkling pure shade, Strong grower and wonderful cut flower variety. One of the very best. Each 50c; doz., $5.00.

**Vanility.** The tallest growing variety. Soft apple blossom pink. Each 50c; doz., $3.50.

**Jasper.** Large flowers of subdued red with waved petals and distinct central blotch. Each 25c; doz., $2.50.

**Colleen.** Light pink with nearly white center. Tall and early. Each 10c; doz., $1.00.

**Milady.** creamy white with ruffled petals. Rated 98 per cent as a cut flower variety. Each 40c; doz., $4.00.

**Parade.** Bright rose flaked scarlet red. Many flowers open at a time. Each 25c; doz., $2.50.

**Honey Boy.** Tall, graceful, light yellow. Each 10c; doz., $1.00.

**Priority.** Very large, light pink, with feather of rose pink. A sure winner. Each 50c; doz., $5.00.

Better Known Gladiolus

**American.** Beautiful soft flesh pink, faintly tinted lavender. A magnificent cut flower. 6c each; 50c per 12; $4.00 per 100.

**Buttercup.** Medium grower, very prolific, early. Flowers buttercup yellow, with darker markings. 5c each; 50c per 12; $5.50 per 100.

**Cezonia Pint.** Beautiful pink, splashed with rose. 10c each; $1.00 per 12; $7.00 per 100.

**Chris.** Dark maroon red, velvety, strong grower, strong spikes. Most attractive and very satisfactory. 15c each; $1.50 per 12; $10.00 per 100.

**Crackerjack.** Dark, rich velvet-red throat, spotted yellow, hybrid maroon. 10c each; $1.00 per 12; $6.00 per 100.

**Glory of Holland.** Nearly white, very beautiful. 15c each; $1.00 per 12; $7.00 per 100.

**Gretchen Zang.** Pink, blending with scarlet. 10c each; $1.00 per 12; $7.00 per 100.

**Marseille Fouch.** Apple blossom pink, with rosy carmine center. 15c each; $1.00 per 12; $6.00 per 100.

**Lilly White.** Almost pure white, medium size, attractive. Very early. Medium growth. 10c each; $1.00 per 12; $6.00 per 100.

**Loveliness.** Color, cream white, with apricot and primrose throat. 15c each; $1.00 per 12; $6.00 per 100.

Mrs. Dr. Norton. Soft white petals, La France rose-pink, tinged with yellow. One of the prettiest and most satisfactory of all gladiolus, rivaling Mrs. Frank Pendleton. As high as seven blossoms out at one time, therefore fine for funeral work. Blossoms completely encircle the spike stem, unlike most gladiolus. 15c each; $1.50 per 12.

Mrs. Francis King. Grand and showy, color, bright scarlet. 6c each; 75c per 12; $5.00 per 100.

Mrs. Frank Pendleton. Vivid pink, toned off white, the lower petals being further ornamented with large velvety orange red blotches in the throat. Strong grower. 10c each; $1.00 per 12; $6.00 per 100.

Netherlands. Very early, medium grower. Color, rose-pink. Throat splashed with red. Fine for early cutting. 6c each; 60c per 12; $4.00 per 100.
DUTCH SPRING FLOWERING BULBS

Plant in September, October and November

When people are enjoying the Crocus, Hyacinths, Tulips, Daffodils, etc., in the spring, we often hear them say—"I am going to have some next year," but they usually neglect to plant the bulbs when the proper time comes in the fall.

Our beds of Tulips, Narcissus, Jonquils, Hyacinths and Crocus are a sight to behold each spring. We have over 20,000 bulbs in bloom. People come from near and far to see them, by far the prettiest sight in the flower line ever seen in Eastern Oswego County. Some people say it reminds them of California. Next spring we will have over 40,000 bulbs in bloom and many more varieties. It will pay to drive miles to see them. They are generally in bloom from May 1st to May 30th.

Snowdrops, Crocus, Hyacinths, Narcissus and Tulips are to me some of the greatest creations of the Almighty. No matter when you plant them (we have planted them in January) they grow throughout the winter and in the early spring are ready to poke their heads up through the soil. If a good covering of snow comes, they grow all the better and come up earlier and better and more even than when there is a dearth of snow to protect them. The first to appear are the Snowdrops followed shortly by the Crocus, then the Hyacinths, Narcissus and Early Tulips. The Late Flowering and Darwin tulips stretch out the season for these flowers until June 1st and sometimes later, depending upon the earliness or lateness of the particular season. Darwin tulips are considered best for cut flowers and are much in demand for Decoration Day.

Hyacinths

Albertine. Pure white.
Baron Van Thynl. Rich purplish blue.
Enchantress. Delicate porcelain blue.
Gen. de Wet. Soft pink.
Gertrude. Deep rose.
Gigantea. Blush pink.
Grandeur a Mervelle. Blush white.
King of the Blues. Dark blue.
King of the Yellows. Rich deep yellow.
Lady Derby. Delicate pink.
La Grandesse. The finest pure white.
La Victoire. Brilliant rose red.
L'Innocence. The popular pure white.
Queen of the Blues. Light blue.
Queen of the Pinks. Rose pink.
Robert Steiger. Deep rose carmine.
Roi des Belges. Brilliant crimson scarlet.
Rose Gem. Rose.
Schotel. Light blue.
Yellow Hammer. The best golden yellow.

Prices: First size bulbs for forcing or planting in beds. 15c each; $1.50 per 12. Second size, 10c each $1.00 per 12.

Tulips

Single Early Tulips

Artus. Bright, deep scarlet.
Belle Alliance. Brilliant scarlet.
Chrysolora. Golden yellow.
Cottage Maid. Pink and white.
Crimson King. Crimson.
Duc de Berlin. Red, edged with yellow.
Duchess de Parma. Orange scarlet, yellow edge.
Dusart. Carmine scarlet.
Flamingo. Carmine rose shading to lighter rose.
Fred Moore. Orange.
Gold Finch. Golden yellow.
Joost Van Vondel. Pure white.
Kaiser Kroon. Bright red, margined golden yellow.
LeEline. Pure white, tinted rose.
Ophir d'Or. Yellow.
White Swan. Pure white.

Single Early Tulip
Double Early Tulips

Blue Celeste. Soft blush lilac.
Boule de Neige. Pure white.
Couronne d'Or. Golden yellow.
Gloria Solis. Deep scarlet, yellow edge.
Le Matador. Scarlet red.
Murillo. Superb light pink.

Double Early Tulips (Continued)

Salvator Rose. Splendid deep rose.
Schroonoord. Best double white.
Tea Rose. Saffron yellow.
Tournesol. Scarlet, broadly edged yellow.

Parrott Tulips

Constantinople. Orange scarlet with black markings.
Gloriosa. Orange and red.
Lutea Major. Yellow striped.
Markgraf of Baden. Yellow and red.
Perfecta. Yellow, spotted scarlet.

The Gertrude Hynanth

May Flowering or Cottage Garden Tulips

Carnation. White with rose pink.
Inglescombe Pink. Delicate rose pink.
Inglescombe Scarlet. Intense scarlet, black center.
Inglescombe Yellow. Bright yellow, called "Yellow Darwin."
John Ruskin. Apricot rose and mauve.
LaMarveille. Orange red and carmine.
Moonlight. Pale yellow.
Pleco. White, with rose edge.
The Fawn. Pale rosy fawn.

Darwin Tulips

Baronne de la Tomayre. Bright purplish rose.
Bartigan. Fiery crimson.
Bleu Amaryllis. Bluish heliotrope.
Clara Butt. Delicate salmon pink.
Dream. Soft lilac.
Edme. Vivid rose pink.
Europa. Carmine purple.
Euterpe. Mauve lilac.
Farncombe Sanders. Fine red.
Faust. Deep purple maroon.
Flamingo. Delicate shell pink.
Franz Hals. Large blush violet.
Gretchen. Beautiful blush white.
Inglecombe Yellow. The "Yellow Darwin." Very late.
King Harold. Deep maroon scarlet.
Latiressse. Violet blue.

Snowdrops. 35c per 12; $2.50 per 100.

Freesias

Gen. Pershing. Flowers, lavender pink with yellow throat. 70c per 12; $5.50 per 100.
Purity. Pure white flowers. 35c per 12; $2.50 per 100.
Rainbow Mixture. Beautiful shades of pink, purple, blue, yellow and lavender. 65c per 12; $4.50 per 100.
Hybridized Potato Seed

From the Seed Balls—Headquarters Stock

Millions never saw a potato seed ball. Thousands have tried in vain to grow potato seed. Now is your opportunity. This remarkable seed will produce an endless variety of new kinds. Your fortune may be in one of them. They are as easy to grow as tomatoes.

Growing new and distinct seedling potatoes from the Seed Ball is intensely interesting. They will be the greatest curiosity of your garden. This seed will positively produce innumerable new kinds, colors, shapes, sizes and qualities. The possibilities will astonish you. Some may be of immense value and bring you a golden harvest. Every farmer, gardener and bright boy should plant a few packets. You may be one of the lucky ones. Price, 1 packet, 15c; 2 packets, 25c.

Berry Crates and Baskets

The importance of using only strong, dependable crates and baskets is not always fully appreciated by berry growers. Simple, make-shift packages injure the fruit and detract from its appearance, thereby causing it to sell for far less than the added cost of good substantial packages to say nothing of the loss of reputation one gets by using poor packages. We have tried all kinds of packages for berries and find that there is nothing equal to the 32-qt. or bushel crate for strawberries and most other small fruits provided that quantity is wanted by the trade. We use a good many 8- and 16-qt. crates for small quantities of strawberries and also crates holding 12 and 24 pints for raspberries, etc. In 32-qt. berry crates, we sell the Delaware and Western N. Y. made crate. These are made strong and durable. The price is 65c each; $6.00 per 10 for crates with three separators each; without baskets. Price of crates complete with three separators and 32 baskets is $1.00 each; $9.00 for 10. If wanted, we can pack 1,000 extra baskets in 10 berry crates or 1,320 baskets in all, besides the separators.

1,000 Baskets Crated for Shipment

Price of Smaller Sized Crates

Crates holding either 8 qt. baskets or 12 pint baskets, price 35c each; $2.50 per 10. Crates holding 16 qts. or 24 pints, price 45c each; $5.00 per 10.

Berry Baskets

Nothing varies more in quality and appearance than berry baskets. It does not pay to use too poor baskets, as the thin basket will bulge out after it is filled, the berries settle and sell for a good deal less than the difference between good and poor baskets. The Arrow or Plum Farmer brand is the best basket made. It is made from the outside of the log of good white wood and is strong and durable. These baskets weigh 125 lbs. to the thousand, while most other makes only weigh 85 lbs. to the thousand. This difference in weight is made up of the greater thickness of the walls of the better basket. We sell the Arrow brand basket for $1.55 per 100, $16.00 per 1,000 or 500 for $6.25.

Metal Rim Baskets. In recent years, there has come onto the market, a new basket with a narrow metal rim. This basket is very strong and reliable and should be thoroughly tested out by fruit growers. They are nested so that 2,880 fit into the same sized crates that hold only 1,000 of the Arrow brand. The price is $10 per 1,000; 2,000 for $18.00.

Cheaper Baskets. We offer the New York State basket at $1.00 per 100; $8.00 per 1,000; 10,000 for $75.00.

Quart Basket

TESTIMONIALS

I have used several makes of baskets during the many years that I have been growing berries and I wish to say that your "Arrow" or "Plum Farmer" brand is so much superior to all other makes that I surely would not use any other if I could get your brand.

W. P. Hull.

The largest grower of raspberry plants in the State of New York, writes me as follows: "I believe the Latham-Redpath is by far the most profitable red raspberry to grow for market, at least as it does on our soil, fruit is so large that the baskets fill up like picking strawberries, and the canes are perfectly hardy in our climate, of course, the flavor is not as good as Cuthbert."

Ocean Co., N. J., June 19, 1925.

The little chicks reached me last evening in fine condition. I am very well pleased with them.

Mrs. Edith M. Peer.
FARMER'S POULTRY DEPARTMENT

Poultry and fruit make a strong combination, suitable for the man or woman who has a small piece of land. The droppings from poultry are very valuable to fertilize berries and the young chicks eat and destroy many insects that are harmful to fruits.

Young Baby Chicks

These chicks, just hatched, have enough food stored in their anatomy to last them for some time and will stand three days' shipment with no injury to themselves. We do not advise getting them too early, before the warm weather comes. Our chicks are hatched by one of the largest and best hatcheries of the United States. We guarantee satisfaction.

How to Order Chicks

Orders for chicks should be sent in as far in advance as possible. When received orders are booked in rotation and filled in that order, as near to your transaction as possible.

Be sure and give full name of your express office as well as your postoffice address. (Write full name plainly.) We will number the chicks as fast as we can, and by giving us the number of chicks you want, when wanted, and we will acknowledge receipt of your order at once.

If you wish to book your order early and it is not convenient for you to pay for the shipment at the time, send one-quarter or twenty-five per cent of the full amount of the order and the balance a few days before the shipment is to be made.

The above also applies to orders for eggs for hatching.

Our Guarantee to You

We guarantee to deliver chicks or eggs to you in first class condition. On arrival, open box, in presence of express or postman, if any chicks are dead or eggs broken, count them and express or postman mark the number on the back of the receipt and return the receipt to us and we will refund your money, with a guarantee of return free of charge. In this way you have no loss and get full number you pay for.

Important: Orders for baby chicks are given for early shipment. If wanted for July or August shipment, write for special prices. Special prices also made for large orders at 3, 6, 10, and 25 per cent for larger orders at 4, 6, 8, 10, and 25 per cent.

We have successfully shipped baby chicks and eggs for hatching, 1,500 miles and can guarantee safe arrival. A YELLOW LABEL will be found pasted on the box containing LIVE BABY CHICKS, which reads as follows:

Live Chicks

EXPRESSMAN: Please be SURE and keep this box of CHICKS LEVEL, DRY, out of the SUN and away from FIRE or HEAT, as there is DANGER of KILLING them.

Super-Quality Chicks

The ordinary person will be eminently pleased with the chicks we offer as per list below. They are hatched by one of the largest and most reliable hatcheries in the United States. Out of all our orders sent them in 1924, we had but one complaint, some chicks had been taken from the package, and this complaint was promptly adjusted. We ordered 100 R. I. Reds for our own use and 101 came alive. The past year, 1925, we had no complaints at all. There was some different from our experience in 1922, when we had our chicks hatched by another concern and almost every shipment led to a complaint, which cost us money to make a large addition to our profits on the transaction. This year we offer Super-Quality Accredited Chicks which come from the best flocks that it is possible to get together, the raising and care of these flocks having been in charge of a University Professor during the past five years. We offer these Super-Quality Accredited Chicks at an advance of $5.00 per dozen; $5.50 per dozen. The $5.00 per dozen has been taken for the purebred utility chicks listed below. If you want the very best chicks to be had, order these Super-Quality Chicks.

Write for prices on any kind of chicks or eggs not listed. We advise getting baby chicks and eggs for hatching every chance you get, for it is a danger of severe weather is over. Eggs are more fertile in warm weather of early spring or summer than in winter, and baby chicks are more vigorous. Please do not order chicks in less quantity than 25, and in multiples of 25.

$1.50.

1926 Prices for Baby Chicks

At these prices, chicks are sent postpaid, who cash in full accompanies the order. If we send C. O. D. for part of the cost of chicks, the postage is also included with the C. O. D.

Eggs For Hatching

We recommend getting Baby Chicks, instead of eggs, when possible. We do not quote eggs here, but if you will write, stating quantity for which you want, we will send prices. We can procure any variety for you.

Lexington Co., S. C., May 4, 1925.

Geo. Washington Miller.

Lenox Improved Sprayer

For spraying small plants such as rose bushes, house plants, etc. Spraying under the leaves, kills the insects, removes the dust, keeps them healthy, and doesn't let them get buggy.

How much mother would like one for her plants. A cake of tobacco soap free with each outfit. Make suds and spray. Your plants will surprise you. Makes house plants bloom. Let your wife see this.

Price complete, $1.00; postpaid; with two extra bulbs.
PEONIES

We offer an assortment covering the entire range of colors, extending over the blossoming season, and representing the very best out of hundreds of varieties gotten together from specialists in France, England, Holland, Japan, and this country. Strong divisions with 4 to 5 large flowers only; the petals may be planted in spring or fall. If planted in the fall, they will bloom some of the following summer and increase in size and beauty for many years. Price, 15 each; $7.50 per 12, unless specially priced. Unnamed kinds, pink, white red, according to color, 50c each; $4.50 per 12.

Peonies may be cultivated over a large part of the United States, the essentials for success being plenty of moisture and not too high a temperature at flowering time. Peonies thrive on a well-drained garden soil but probably do best on a lean, although it should be one retentive of moisture. This should be well enriched, as they are cross-pollinated and require an abundance of manure. The best time to plant is in August although it may be successfully done from then until spring. Care must be taken not to plant too deep, the eyes requiring to be within 4 inches of the surface.

Peonies are hardy so muching or winter protection is not essential but it is considered good practice to apply a coating of coarse manure over the plants in the fall and cultivate it into the soil in the spring. The flowers may be cut any time after the color begins to fade and before the petals are released from the bud. If they be kept in cold storage or otherwise for days or sometimes even weeks, they must be cut at this early stage of development.

We grow only the following varieties on our own farms, but as we live but a few miles from the largest Peony Farm in the world, we can supply any of those wanted. Let us know your wants and we will quote prices. Send for complete peony list.

List of Named Varieties of Peonies

Albert Crousse. Rose white, flecked crimson, late.
Comte de Jussier. Outer petals pink, inner sulphur.
Comte de Niepperg. Dark, rose-pink, very large.
Comte d'Osmont. White, with sulphurish center.
Couronne d'Or. Immense, very full, imbricated.

Festiva Alba.*

Grandiflora Rosea. Light rose, outer petals very large, inner collar and bunched: vigorous grower.

Humeii. Cherry pink.
La Tulippe. Very large, full, shell formed blooms, begins to fade on long stems; delicate rose, fading to creamy white. Late.
La Sublime. Crimson, fine, full, fragrant.
Louis Van Houtte. Fine dark crimson, very double.
Lady Bramwell. Silvery-pink, late midseason.
Meissonier. Reddish purple, crimson center.
Mlle. Rene Dessert. In clusters, soft lilac with silvery violet reflex.

Stokes Basins. Reddish purple, crimson center.

Single Peony

Duchesse d' Orleans. Pink, with silvery reflex.
Duchess of Nemours. Cup-shaped, sulphur white, late.
Duke of Wellington. Sulphur white, large and well formed.

Eulalie Superba. Soft pink, early.
Faus. Hydrangea pink, fading to lilac-white.
Felix Crousse. Brilliant, flaming red. The best red midseason. 90c each.

Dorchester Superba. Delicate pink and salmon, very full flower.
Rubra Superba. Rose type, very late, rich brilliant crimson. 90c each.

Vernon Co. Wise, April 24, 1925.

Received the Jumbo strawberry plants today and must say they are the finest plants I ever set and I have set a lot of them. I am sorry I didn't order all of my plants from you.

F. W. Bariliani.

I sent you to four roses and received them alright.

A. L. Burnham, Jr.
Lilies

We are devoting considerable attention to Hardy Lilies, but confining our growing to the best varieties and those that can be handled with the maximum satisfaction. We have endeavored to cast out all poor keepers and those that do not do well. Lilies should be planted in autumn.

Batemanni. Three to four feet high with five to ten flowers of reddish orange color. Blooms in July and August. 35c each; $2.50 per 12.

Canadense. Bell shaped blossoms which vary in red and yellow colors. 3 to 5 feet high. 25c each; $2.50 per 12.

Canadense Rubrum. Selected red. 35c each; $3.50 per 12.

Canadense Flavum. Selected yellow. 35c each; $3.50 per 12.

Elegans Bicolor. Dwarf, orange, edged scarlet with few spots. 35c each; $3.50 per 12.

E. Horsemanni. Very dark, almost black. 35c each; $3.50 per 12.

E. Quisp. Vermillion with few black spots over-spread with bright lustre. 30c each; $2.00 per 12.

E. Robusta. Orange, spotted black. 30c each; $3.00 per 12.

E. Rosea. Coral red, faint black spots. 60c each; $6.00 per 12.

E. Sommierium. Very dark red with a few black spots. 60c each; $6.00 per 12.

Elegans Mixed. Mixed shades of orange. 25c each; $2.50 per 12.

Hansoni. Grows 3 to 5 feet. Reflexed blossoms 2 inches across, petal bright orange, faintly spotted brown. 3 to 12 in a cluster, flowering in June or early July. $1.00 each; $9.00 per 12.

Henryi. Similar in form to the Speciosums. The beautiful orange yellow flowers with a green band are very effective. Hardy and easy to grow. Blooms in August and September. $1.00 each; $9.00 per 12.

Regale. (The Regal Lily). The flowers are white, slightly suffused with pink, with a beautiful shade of canary yellow at the center, blending out part way up to the trumpet. The fragrance is fascinating, similar to the Jasmine. A splendid hardy lily. Flowering about July 1st. Produces 5 to 8 blooms. $1.00 each; $9.00 per 12.

Supurbum. 3 to 6 feet high, flowers from 5 to 40, nodding brilliant orange red. Blooms in July. 30c each; $2.75 per 12.

Tigrinum Fl. Pl. (Double Tiger.) Orange red, spotted black. 30c each; $2.75 per 12.

Tigrinum Splendens. Single form, same colors. 30c each; $2.75 per 12.

Tigrinum Mixed. Double and single. 25c each; $2.50 per 12.

Wallacei. Orange yellow, spotted black, erect. 25c each; $2.50 per 12.

Spectrurn Magnusum. A beautiful pure pink variety, exceeding in beauty the Melpomene. 35c each; $3.50 per 12.

Spec. Melpomene. Frosted white, spotted, clouded and bordered with pinkish crimson. Petals deeply recurved and widely ordered. Words cannot describe the beauty of this variety. 40c each; $4.00 per 12.

Spec. Rubrum. Deep rose, freely spotted crimson and mottled white, perfectly exquisite. 40c each; $4.00 per 12.

Auratum. The flowers are pure white, thickly studded with crimson spots, while the center of each petal runs a clear golden band. When fully expanded, the flowers measure nearly a foot across and possess a most delicious fragrance. Blooms from June to October. 50c each; $5.00 per 12.

Candidum. (The Madonna Lily.) Flowers white and very fragrant, borne on long stems. 35c each; $3.50 per 12.

Harrissi. (Bermuda Easter Lily.) Delightfully fragrant, pure waxy white. Adapted for forcing, not hardy out doors. 35c each; $3.50 per 12.

Foundation Planting of Hardy Ferns

20 Hardy Ferns (Large Plants) for Only $4.00.

We offer these 20 choice ferns for only $4.00. Our Ostrich Plume Ferns, Lady Ferns, 4 Marsh Shield Ferns, 1/2 the collection for $2.50. Any one fern for 50c.

Hardy out-door ferns grow best in the shade or half shade and will do well in the border. They are just the thing for the shady place around your house where most flowers will not do so well.

Of all the hardy ferns, the Ostrich Plume is perhaps the best as it grows the tallest and fastest of any. It often has as many as 15 fronds gracefully arranged, presenting an object more beautiful than many varieties of palms. Under favorable conditions, the fronds grow 4 feet tall.

Lady Fern is a distinct different type from the Ostrich Plume and the Marsh Shield. It is extremely variable, growing in all situations from low moist woodlands and shaded stream banks to dry woods and bushy clearings, but to develop its best forms, it wants partial shade and a reasonable amount of moisture in the spring.

The Marsh Shield Fern, (Aspidium Thelypteris) or evergreen wood fern is especially at home in shade or half shady places. This fern is used quite extensively for forming ground covers under shrubbery or on rocky hillsides in groups. The leathery fronds, 2 to 3 feet, produced early in the spring, are a dark blue green color with lanceolate, three inch pinnate blades. Plant the top of the crown level with or 1 to 2 inches above ground.

The strawberry plants received some time ago, Premier, S. L. Champion and a few Jumbos, all in good order.

The strawberry plants came in excellent condition. Florence Churchill.

Oneida County, N. Y. June 15, 1895.

The Pro. of Quebec, Canada, July 15, 1925.

Strawberry plants received some time ago. Premier, S. L. Champion and a few Jumbos, all in good order.

Whitefield, N. H. June 15.

Received the Jumbo plants this morning and I am very much pleased with them. They are the best plants I ever bought. Leonard H. Bailey.
Think of picking ripe

Farmer's Tally System

For Keeping Tally with Berry Pickers, Hop Pickers. This is the most simple and economical method of keeping tally with berry pickers ever devised. It consists of cards printed with four rows of checked off spaces, each space representing a certain number of quarts. On one side of the card are the "1 qt." spaces and on the other the "4 qt." spaces. Near the eye hole is a space for writing the name of the picker. The proprietor's name can be written on the back. There are 100 cards furnished with each outfit and an up-to-date Railroad Conductor's punch, made of the best grade material. When the pickers go to the field, they take one of these cards with a string through the eye hole and put the string about their neck or attach it to the front of their dress, so as to be easily got at when they want it punctured. When they have picked a "handy" or four quart picking stand full of berries, the man who has charge of them, takes it from them and punches out a space in the card to represent the number of quarts picked. There are 20 "4 qt." spaces and 20 "1 qt." spaces so when the spaces are all punched out, the picker has picked 100 quarts. Our rule is to let the picker-hold these cards until the close of the season when we pay them off. The picker has to give us money before the end of the picking season, we pay him about two-thirds of what is coming to him, taking up his cards and holding them until the close of the season, when the balance is paid him. We find that some pickers will leave when the heaviest picking is over unless we hold back part of the pay. Price of complete tally system, punch and 100 cards, $2.50, postpaid.

The Hawkeye Tree Protector

For protecting trees, shrubs, etc., from rabbits, mice and other gnawing or girdling animals. Made of wire which becomes extremely hard and tough when exposed to the weather. The wire has a peculiar bitter taste which is obnoxious to all gnawing animals. The protectors are chemically treated on one end with a coal tar preparation to prevent decaying of the wood when it comes in contact with the soil. If set 2 inches in the soil, they protect trees like tomatoes, etc., from cut worms, frosts, etc. When ready to use, soak protector 15 minutes in water, then wrap them around the trees as many times as possible with the black or treated end down. Tie with string or wire at top and bottom. Crowd the top of the protector a little tighter at the top, so the string or wire won't slip down. Protects from all gnawing insects and animals and prevents damage caused by this in shipping weight 30 lbs. per 100 protectors. Prices: 25 for $1.00; 50 for $1.50; 100 for $2.50; 1000 for $20.

STANDARD FARM AND GARDEN BOOKS

Practical Landscape Gardening by R. B. Cridland, $2.65, postpaid.
The Blossom Circle of the Year in Southern Gardens, by Julia L. Dillon, price, $2.65.
Practical Plant Propagation by Prof. Alfred C. Hottes, $3.75, postpaid.
Home Fruit Grower by M. G. Kains, $1.65, postpaid.
The Complete Home Landscape, by Arthur J. Jennings and Leonard H. Johnson, $2.65, postpaid.
The Principles of Flower Arrangement, by Prof. E. A. White.
Garden Guide, $1.65, postpaid.

First Lessons in Dairying, by H. E. Van Norman, $1.90.

EXTRAORDINARY ANNOUNCEMENT

We wish to announce that Mr. James M. Farmer, son of the proprietor of this business will be with us this year, after April 1st. Mr. Farmer is a graduate of the Horticultural Department of Syracuse University, specializing in Landscape Architecture under Professors Carpenter, Tracy, Stafford and others. After his four years' training in Syracuse University, Mr. Farmer acted as first assistant for two years to Prof. Horace K. Major, leading Landscape authority of the West and head of the Landscape Dept. of the University of Missouri, at Columbia. In addition to this, Mr. Farmer has had an extended business experience in the largest store in the world. He will have charge of our office force and be available at most times for landscape planning for our customers.

Osage Co., Kansas, April 15, 1925.
Shipments of plants received in due time. Every one of the Champion is growing fine. Am well pleased with the raspberry plants. Every one growing fine.

C. L. Leslie.

NEWBARK

PLANTIC TREE SAVER

A natural tree saver and an antiseptic plastic preparation quickly applied to protect all wounds of bark or limbs from insects, fungus disease germs and prevents disfigurement, decay and death of the limb. A small patch of bark ripped off by lawn mower, plow or careless agency, may be a place for rot producing fungy to lodge and eventually may mean the death of a valuable tree. With the use of Newbark injuries and decay may be stopped very early.

Write for free booklet, "How to Quickly Renew the Life of Wounded and Decayed Trees." This book, which contains several pmts. plus a few cents postage for a 5-lb. can., 2-lb. can., 75c; 10-lb. can., $2.50, plus the postage. Full instructions for applying on each can.

Ontario, Canada, Sept. 22, 1925.

The 56 strawberry plants arrived here the night of the 18th, I think that was fine. I never got plants quicker, even when I ordered them a few miles from home.

Baltimore, Md., Feb. 28, 1925.

Goods I ordered of you arrived today in good condition.

GARANIMS

From 2-inch pot to bush on earth on roots, 29c each; $2.90 per 12; $10 per 100. Orders for 10 varieties. We do not handle Geranium slips, just kindred red.

DOUBLE GERANIMS

Abbie Schaffner. Soft, pleasing crimson-scarlet.

Alphonse Ricard. Bright vermilion.

Belmont. Very deep, yellow salmon.

Bertha de Pressey. Silver rose pink, almost white center.

Col. Thomas. Deep cardinal red.

Cousin Janie. Clear pink, slightly spotted red.

Dagata. Mauve rose, with white blotches on base of petals.

Double Dryden. Soft crimson, shading to white at center.

Edith Blanc. Bright carmine shaded around the white eye and on upper petals with bright scarlet.

E. H. Trego. Dazzling scarlet, soft velvety finish on saffron ground.

Jean Oherie. Peach pink shading to almost pure white on edge of petals.

Jean Vland. Mauve rose, shading to white center.

La Favorite. Finest pure white.

Les Plante. Bright vermilion scarlet.

Leon Baudrle. Carline lake, shading soft cerise to large white center.

Marcella. Bright silverofer red, upper petals richly shaded carmine purple to a distinct white throat.

M. T. Reculier. Neyron rose with white center.

Marquis de Castellane. Soft crimson, varying to tomato red.

Marce de Montmort. Deep crimson carmine.

Miss F. Perkins. Deep rose pink with distinct white throat.

Miss Kendall. Dark carmine red, shading to lake towards the center.

Mme. Canovas. Dark velvety scarlet with maroon shading.

Mme. Charroite. Distinct salmon, shading lighter towards the edge, exquisites shade of rosy carmine.

Mme Sarioze. Light rose, shading to white center.

M. Jaulin. Rich light salmon, shading to an almost white margin at edge of petals.

Mme. Laporte Bisque. Light salmon.

Mme. Landry. Apricot, shading to copper with white edge.

Monsieur Emile David. Violet rose color, base of upper petals feathered white.

Mme. Rendere. Has the best white.

Mrs. Annie Vincent. Carmine, maculated white.

Mrs. Lawrence. Satiny salmon pink, slightly tinged white.

Ornella. Scarlet, slightly shaded crimson.

Peter Henderson. Bright poppy red.

President Balleit. Bright scarlet with soft velvety finish.

S. A. Nutt. Dark red. Used as a pot plant and better than any other.

Scarlet Redder. Deep fiery red, not as dark as S. A. Nutt.

SINGLE GERANIMS

Alice of Vincennes. White throat, shading through violet crimson to immense scarlet margin.

Eugene Sue. Russell orange.

Graville. Deep rose pink, white blotches on upper petals.

Jean Pabon. Blood red with small white eye.

Javanerie. Deep, faint red.

Maxime Kovaleski. Orange shade of Lincoln red.

Mrs. E. G. Hill. Soft, light salmon.

Pauline Carroll. Shaded yellow, rich salmon scarlet.

Rival. Unique soft shade of salmon red, upper petals blotched.

Snowdrop. Pure white flowers.

IVY LEAVED GERANIMS

Achievement. Soft cerise pink.

Alliance. Delicate lilac white, upper petals feathered and blotched bright crimson rose.

Caesar Franck. Soft rich crimson, rose at base of petals.

Countess de Grey. Light satiny salmon color.

Impeccably colored. Exquisite shade of rosy carmine.

James Attfield. Pretty tint of soft pink.

James T. Hamilton. Intense carmine crimson.

Joseph Waring. Covered with purple, rose color, slightly feathered dark maroon.

Mrs. Banks. Blush white, upper petals feathered reddish Neyron.

Mrs. Hawley. Rose cerise, slight magenta shading, dark blotch on upper petals.

Pierre Crozy. Bright scarlet, handsome.

Rycroft Surprise. Clear rose or rich pink.
SCENTED LEAVED GERANIUMS

Farmer's Bargain Counter

B-35. Japanese Barberry, 2-yr., 6 to 12 inches, 15c; $1.50 per 12; $10.00 per 100. 12 to 15 inches, 20c each; $2.00 per 12; $15 per 100.

B-36. Left-over chicks in midsummer and early autumn, heavy mixed, $3.50 per 25; $12.00 per 100. Light mixed, $3.00 per 25; $10.00 per 100.

B-37. Farmer's Standard Mixture and Kirchoff's Mixture gladiolus, small bulbs grown from bulbs last year, 25c per 12; $1.75 per 100. Large bulbs, 40c per 12; $2.75 per 100. Largest bulbs, 60c per 12; $4.50 per 100.

B-38. 12 mixed Dahlias, $1.00, after May 15th. White, yellow and other colors, 15c each after May 15th.

B-39. Golden Bantam Sweet Corn on the ear. Ears, 10c each; 10 ears 75c; 100 ears, $6.00.

This season, compared with other years, is fully one month late. If, when you read this, it is May 15th, just act as if it were but April 15th, in the ordinary year. We expect that good weather will prevail late in the fall as has bad weather in the early spring.

USPULUN

A (treated) B (not treated)

Above shows garden peas in greenhouse. The temperature was too high for peas, but in spite of this, a fair stand was secured with the Uspron treated seed and illustrates the protective effect of Uspron against soil decay organisms.

Uspron is a new preparation recommended by Experiment Station Officials and agricultural authorities for treating garden, field and flower seeds, before sowing, to prevent the growth of seed borne organisms, which live on the seeds and cause plant diseases to develop and injure the plants. It also checks root diseases and damping off of seedlings, when applied to the plants at favorable times.

Appearance. Uspron is a graying white powder containing a dye, so that the water solution is deep blue in color. The dye is for the purpose of distinguishing treated seed. Uspron is used in very small quantities, ¼ of 1 per cent in water is sufficient. The cost per lb. or bushel of seed is almost negligible.

Effects. Uspron not only kills disease organisms but also stimulates a better growth in the plant. It also raises the percentage of germination in seeds of low vitality. It is an excellent seed and soil disinfectant.

Price of Uspron. 2 oz. tins 55c, 8 oz. tins $1.65. We suggest Uspron for root rot and other plant diseases of strawberries, root galls of raspberries, etc., also damping off of cabbage and other vegetable plants in seed beds.

Letters from Customers

Jackson County, Mo., 3-20-25.
Received the shipment of grapes, raspberries, and flowers all O. K. Everything arrived in good shape. Thank you,
W. Frederick, James C.
Plants arrived O. K. today. Gooseberry and currants, fine plants.
Wm. Frank j.
Crawford County, N. Y., May 15, 1925.
The 150 chicks which I recently ordered of you, arrived on the 6th of May in good condition, and are still thriving with the exception of 2 small ones which have died. Am very well pleased with the lot and thank you for the 5 extra ones.
Harriet M. Place.
The Walt's everbearing plants I got of you last year are doing well now.
C. Brin Smith.
Shenandoah Co., Va., Dec. 7, 1925.
Received plants this morning. They were very nice.
Michael Co. W. Va., May 3, 1925.
Our roses arrived a few days ago and I was well pleased with them.
C. A. Blackburn.
State Road, New Castle Co., Del., March 28, 1925.
The strawberry plants from you are growing and doing fine.
C. W. Hamilton.
Frederick, Md., 4-27-25.
I received the 8 roses today at noon tide. They came in fine shape; well pleased with them.
C. E. DeVibis.
Smithville, Tenn., May 20, 1925.
We received the strawberry plants; they were fine plants.
James Webb.

Special Offer

Twelve Hardy Perennial Plants, such as Sweet William, Columbines, Shasta Daisy, Coreopsis, Poppies, etc. We will send in this collection a grand variety of plants all colors that will give you flowers at all times in summer. (These plants may be left in ground during winter.) This collection must be strictly our selection, and cannot be broken or divided. 12 Hardy Perennial plants, $1.50; 20 plants, $2.50.

Lily-of-the-Valley

The sweetest and loveliest spring blooming plants. We offer strong plants, especially suited for outdoor planting. 10c each; 12 for 90c.

Parrots Feather

Wonderful drooping water plant. Delicate feathery foliage. Nothing more interesting or attractive. 25c.

Moss Fern

Beautiful upright-growing Moss, numerous feathery stems, 12 to 18 in. in height. 25c each; 3 for 74 cents.

The Redpath raspberry plants were splendid. Send me 25 more Redpath.
James A. Maloney.
Oklahoma City, Okla., March 18, 1925.
Received my plants and I don't think I ever saw plants in nicer condition and finer plants.
W. O. VanArsdell.
Portland, Maine, Sept. 8, 1925.
The strawberry plants arrived in good condition and I feel I made no mistake in selecting the selection of varieties to you.
Frank B. Fish.
Geneva, Ohio, April 16, 1925.
We always want you to call upon it; it reads like a romance, what an inspiration for the fruit lover, so full of enthusiasm that even when a man is tired, he doesn't know it. Long live the "Strawberry Man." Frank Meyers, 80 years among fruits.
Benton Co., Ark., 3-16-25.
My order of plants came O. K. with the exception of Hugonis rose which was not sent.
G. D. Clayton.
Oakland, Calif., March 16, 1925.
Received plants O. K. You sent me more strawberry plants than I ordered.
B. M. Bretz.
Received plants in fine condition. Thank you very much for the nice plants and the way they were packed.
Wm. H. Slater.
Randolph Co., W. Va., March 27, 1925.
Some of the varieties bought of you have given satisfaction and some have not. My first order was for 100 Plum Farmer raspberries. They were good and I have them growing still.
L. D. Wilmuth.

Masterpiece Pansies

Mixed all colors. Petals of flowers crimped, curled and ruffled, often three inches across. Blotched petals of wonderful colors and striking markings. 5 for 70c; 10 for $1.40.

Umbrella Plant

A large specimen as handsome as a Palm. Throws up stems about two feet high, surmounted with a whorl of leaves, diverging horizontally. Grows luxuriantly in water, and is therefore indispensable for aquariums or fountains. etc. 25c each; 3 for 55c.

Wonder Lemon

Fruit often weighs over 3 pounds. Excellent for lemonade, pies, etc. Blossoms very sweet-scented. Fruits at all stages of growth, 90c each; large plants, 75c and $1.25.

Popular Oleanthers

The dark, rich green foliage and beautiful blooms make it more handsome than a Palm for pot, tub or box culture for house or yard. Can be wintered in cellar. Varieties: pink, white, dark red, and yellow. 25c each.

Send this with 25 cents to The Farm Journal

The price of The Farm Journal is $1.00 for 4 years; but since we believe that to read this wide-awake home, farm and garden paper is the greatest benefit to our friends and patrons, and so indirectly to us, we have arranged this trial offer with the "Mutual Benefit" publishers so you can try it one year—12 big issues for only 20c.
The Farm Journal, published monthly; beautiful color covers; fine pictures; 125 to 52 pages; 48 years old; over 6,000,000 readers from Maine to California.

Suits Them All—Will Suit You

Full of gumption—boiled down clean; truthful—stands for the right—low-downs to no one. ing to chrysanths. Upright. Flowers delicately perfumed. Price, nice plants, 30c ca., 3 for 85c. Strong

2-yr. plants; 30c ca., 3 for $1.50.

Extra large 3-yr. plants, 85c, $1.50 and $1.50.
StimUpianT  
Legume inoculation  
HumogerM  
StimUpianT  

The Best Inoculation for All Legume Seeds Means Better Crops, 
Better Soils, Less Fertilizer Expense

Seeds of all Legumes—Clovers, Alfalfa, Sweet Clovers, Garden Peas, Beans and Sweet
Peas, Vetches, Soy Beans, etc.—will yield far better results if inoculated with
HumogerM, and, in addition, leave in the soil a heavy deposit of nitrogen which
benefits all succeeding crops. No other inoculant will produce the wealth of nodules
obtained by using HumogerM. We believe in inoculation, we favor the soil medium,
and we believe in HumogerM. Of all the inoculants manufactured, we believe it is
the most effective, and cheapest, consistent with high quality.

WHAT HUMOGERM IS: A culture of bacteria especially selected and bred for
maximum vitality and ability to take nitrogen from the air. They are carried in a
sterilized, finely ground; porous humus medium that keeps them fresh, active, and
vigorous. Economical and easy to use, HumogerM is a sensible insurance and a profit-
able investment.

HOW TO ORDER: Specify crop and number of bushels you wish to inoculate (one-
bushel size contains sufficient bacteria to thoroughly inoculate
one bushel of designated variety of legume seed).

Stim-U-Plant  
Concentrated  
Easy to Apply

THE MAGIC FERTILIZER IN TABLET FORM

Stim-U-Plant is the only complete plant-food in tablet
form. The three mineral nutrients most heavily drawn from
the soil by growing plants (flower and vegetable) are nitrogen,
phosphoric acid, and potash. Because of this fact, Stim-U-
Plant tablets are made up of these three in a balanced ration
of 11 per cent Nitrogen, 12 per cent Phosphoric Acid, 15 per cent
Potash—all of which elements are water-soluble and imme-
diately available to the feeding root-hairs of the plant.

Tablet Form Fertilizer Unique and Valuable

1. Gives an exact feeding unit—no guesswork.
2. Provides for absolute control of feeding, eliminating
the danger of overfeeding.
3. No messy mixing.
4. No unpleasant odor.
5. Is easiest to apply.
6. Insures maximum efficiency because the plant gets
all the food-value—one being lost through scattering where
not available to the plant, leaching, and run-off of surface soil-
water.
7. Makes repotting of house plants unnecessary, as
it replaces the food withdrawn by the growing plant.

Because of its ready solubility, Stim-U-Plant can easily
be used as a liquid manure, by dissolving the tablets in water
at the rate of four to the gallon.

| Small size, 30 tablets | $ .25 |

| season’s supply for medium-sized garden) | $3.50 |
CHINESE CINNAMON VINES
Beautiful Leaves, Dainty Flowers, Exquisite Perfume

Cinnamon Vines Are the Most Beautiful, Most Fragrant, and Easiest Grown of All Climbers. Will Make Your Porches, Windows and Walks “Perfect Bowers of Beauty.” Also Make Charming Window Plants, In-Doors or Out.

Once Planted They Grow a Lifetime

Cinnamon Vines are perfectly hardy, grow in sun or shade, wet or dry. No insects or blight ever troubles—no winter harms. Will grow 20 feet—a mass of vines—in a single season. Nothing like them in the world.

Their pretty, glossy heart-shaped leaves and wealth of tiny white bloom—emitting sweetest perfume, add a charm unknown to all other climbers. No words can describe their delicious fragrance. They perfume the air for a very long distance. The tops die down in the fall, but grow again very rapidly in the spring.

The tubers are edible, and grow larger from year to year. Many cook or bake them and call them fine eating. When first introduced they sold for $10 each. No one should miss planting these charming vines. They will be a constant delight to every lover of the beautiful.

THEY ARE FROM CHINA—THE LAND OF WONDERS

IMPORTANT. Now is your time to get genuine Headquarters Stock—from the largest grower in the world—at special reduced prices for this season. Every tuber sure to grow. Don’t miss this bargain. Get them now. Please show this offer to your friends.

Many make the mistake of planting the tubers wrong side up. The illustration shows the tuber in correct position for planting—small end up.

READ THE TESTIMONIALS—COULD FILL MANY PAGES

FROM PROF. W. H. MORSE, AGRIL. CHEMIST, HARTFORD, CONN.

“Your Cinnamon Vines were the marvel of the city. They were more wonderful, more pleasing and more fascinating than ever. Their sweet perfume captivates every heart.”

FROM LYDIA AND M. J. CLARKSON—AUTHORS OF “ART STUDIES”

“No Vines ever gave us so much continued pleasure. Their growth is truly phenomenal. Their handsome foliage and fragrant blossoms commend them to every lover of flowers. If their merits were more widely known you would be overwhelmed with orders.”

CINNAMON VINES ALSO MAKE CHARMING HOUSE PLANTS

“We think your Chinese Cinnamon Vines one of the most desirable house plants for winter. They bloom as freely in the house as out doors, and they can be trained over and around a window, and will fill a room with a delightful fragrance in the cold and dreary winter months.—S. Wilson, Bucks Co., Pa.

CINNAMON VINE TUBERS SPLENDID FOR EATING

“I write to tell you that your Cinnamon Tubers make fine eating. I have had a row across my yard for years, and I often dig a lot and bake and eat them the same as sweet potatoes. They are just splendid. I think everyone should grow them.”—L. S. Wright, Portland, Ore.

THE BEST TESTIMONIAL OF ALL—FROM OUR OWN GROWER

“Nearly every neighbor for miles around who has seen the vines and noted their wondrous perfume while passing along the highway, has purchased a supply. What more need be said?”

“LET THEIR BEAUTY AND FRAGRANCE BLESS YOUR HOME”

REDUCED PRICE OF CINNAMON VINES.

Medium Size, Strong Tubers, 10c each; 3 for 25c; 7 for 50c; 15 for $1; 100 for $6.

Extra Large, 2 Years Old—will quickly made a canopy of beauty—20c each; 3 for 50c; 7 for $1; 15 for $2; 100 for $12.

Order at Once, and order plenty. Tubers keep perfectly for months. Plant from earliest spring up to July. For Windows, plant 2 Tubers on each side; for Porches, Walks, etc., plant 3 inches or a foot apart. Cover 2 inches. Furnish twine or wire support for the Vines.

IMPORTANT. The demand for Cinnamon Vines in 1925 was so great that we were unable to supply all our customers. Keeping this in mind, we have had grown for us the largest supply of tubers that we have ever had. Not only have we the greatest supply, but the quality is unsurpassed, much larger and better tubers than in former years. We assure patrons who wish to get Cinnamon tubers that it is practically impossible for us not to be able to supply them during the spring and summer of 1926. We advise ordering the largest tubers.
